Comment Details

Commenter Type: Member of the Public

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I object to the development because of the poor content of the plans - at 10 stories the buildings are too tall close to the site boundaries.

This will create loss of light, especially in winter to large areas around the site. There is also likely to be airflow issues creating wind at ground level.

The maximum should be 8 stories and set well into the site, in other words the same as current Graham House.
