We can also cater for all your **Asphalt Surfacing** requirements through our surfacing division **HH Tarmac Specialist**.
For all enquiries please email info@hhtarmacspecialist.co.uk or contact Simon Williams on 07870622003

I am Daniel Rogers of SWF Consulting acting as Structural Engineer for the Project. During the course of the work I can confirm that we did not encounter and no reports were made to us of any evidence of contamination. Please find attached statements from both the Ground worker and site manager also confirming they didn't encounter any unexpected contamination during the works. No remediation was required throughout the works and the watching brief is therefore closed out.

Regards,

Daniel Rogers
