Delegated officer report for planning application

Application no.	142115/JO/2025
Date registered valid:	10 February 2025
Proposal:	Variation of condition 17 (energy statement) of planning permission referenced 133576/FO/2022 (as amended by 135609/JO/2022 and 140282/JO/2024), to allow alteration to environmental standards
Address:	Oakwood Resource Centre, 177 Longley Lane, Manchester, M22 4HY
Ward(s):	Northenden Ward
Applicant:	Mr Graham Morley, Wythenshawe Community Housing Group
Agent (if any):	Mrs Archana Gemawat, Arcus Consulting
Case officer:	David Lawless Tel: 0161 234 4543 Email: david.lawless@manchester.gov.uk
Recommendation:	Approve
Date of recommendation:	14 March 2025

Application details

Type of application: Variation or Removal of Condition

Development type: Major Dwellings

Standard consultations:
No consultations have been printed and sent.

Departure from Development Plan: No

Environmental Statement: Not required

Description of site/building

The Oakwood Resource Centre (177 Longley Lane) was a large single storey building set within 0.61 hectares. It was set back from Longley Lane and located to the rear of a children's nursery (Kid Start Ltd) and the Longmire Centre, which houses an NHS service.

The Oakwood Resource Centre was vacant for a number of years and was redeveloped following the granting of planning permission 133576/FO/2022:

Erection of 20 no. two storey residential dwellinghouses with associated car parking, landscaping, boundary treatments following the demolition of the existing building

To the rear of the site there is an area of open space, while to the east and west there are a number of dwellings. To the south of the sites lies the children's nursery and Longmire Centre. Access to the site is via an existing driveway that leads off Longley Lane.

The original consent has been varied twice:

- 135609/JO/2022 – Variation of conditions 2 (approved drawings) and 7 (retained trees) attached to planning permission 133576/FO/2022 to allow for the removal of two existing trees.
- 140282/JO/2024 – Variation of Condition 17 (Energy Statement) attached to planning permission 133576/FO/2022 (as amended by 135609/JO/2022).

Listed building: No

Conservation area: No

Tree Preservation Order: No

Description of development

The applicant is applying again to vary Condition 17 (Energy Statement), attached to planning permission 133576/FO/2022 (as amended by 135609/JO/2022 and 140282/JO/2024) in order to submit a report which now includes a post completion report.

Consultations & Notification Responses

Local Residents – No comments received.

Policies

The National Planning Policy Framework (December 2024) – The National Planning Policy Framework sets out the Government's planning policies for England and how these should be applied. It provides a framework within which locally prepared plans for housing and other development can be produced. Planning law requires that applications for planning permission be determined in accordance with the development plan, i.e. the Core Strategy Development Plan Document and accompanying policies, unless material considerations indicate otherwise. The National Planning Policy Framework is a material consideration in planning decisions.

Paragraph 11 states that plans and decisions should apply a presumption in favour of sustainable development, which for decision-taking means:

- c) approving development proposals that accord with an up-to-date development plan without delay; or

- d) where there are no relevant development plan policies, or the policies which are most important for determining the application are out-of-date, granting permission unless:
- i. the application of policies in this Framework that protect areas or assets of particular importance provides a clear strong reason for refusing the development proposed; or
 - ii. any adverse impacts of doing so would significantly and demonstrably outweigh the benefits, when assessed against the policies in this Framework taken as a whole, having particular regard to key policies for directing development to sustainable locations, making effective use of land, securing well-designed places and providing affordable homes, individually or in combination.

Paragraph 12 states that the presumption in favour of sustainable development does not change the statutory status of the development plan as the starting point for decision-making. Where a planning application conflicts with an up-to-date development plan (including any neighbourhood plans that form part of the development plan), permission should not usually be granted. Local planning authorities may take decisions that depart from an up-to-date development plan, but only if material considerations in a particular case indicate that the plan should not be followed.

The Places for Everyone Plan – This plan was adopted on 21 March 2024, as such the Plan and its policies are now a material planning consideration in the determination of planning applications. The Plan and its policies must therefore be given significant weight in the planning balance. The relevant policy is set out below:

Policy JP-Strat9 (Southern Areas) – This policy states that the economic competitiveness, distinctive local neighbourhood character and environmental attractiveness of the southern areas will be protected and enhanced. There will be a strong emphasis on making as much use as possible of suitable previously developed (brownfield) land and promoting the roles of the areas' town centres and its other key assets.

Core Strategy Development Plan Document – The Core Strategy Development Plan Document 2012 -2027 ("the Core Strategy") was adopted by the City Council on 11th July 2012. It is the key document in Manchester's Local Development Framework. The Core Strategy replaces significant elements of the Unitary Development Plan (UDP) as the document that sets out the long term strategic planning policies for Manchester's future development.

A number of UDP policies have been saved until replaced by further development plan documents to accompany the Core Strategy. Planning applications in Manchester must be decided in accordance with the Core Strategy, saved UDP policies and other Local Development Documents. Relevant policies in the Core Strategy are detailed below

Policy SP1, *Spatial Principles*, - Development in all parts of the City should make a positive contribution to neighbourhoods of choice including creating well designed places that enhance or create character and protect and enhance the built and natural environment.

Policy DM1, *Development Management* – This policy states that all development should have regard to a number of specific issues, of which the following are of most relevance:-

- Appropriate siting, layout, scale, form, massing, materials and detail.
- Impact on the surrounding areas in terms of the design, scale and appearance of the proposed development. Development should have regard to the character of the surrounding area.
- Effects on amenity, including privacy, light, noise, vibration, air quality, odours, litter, vermin, birds, road safety and traffic generation. This could also include proposals which would be sensitive to existing environmental conditions, such as noise.
- Community safety and crime prevention.

- Design for health.
- Vehicular access and car parking.
- Effects relating to biodiversity, landscape, archaeological or built heritage.
- Flood risk and drainage.

Policy H7, Wythenshawe – The Council expects that Wythenshawe will accommodate only around 3% of new residential development over the lifetime of the Core Strategy. New high quality high density development will be encouraged within the district centres of Northenden, Baguley and Wythenshawe and upon small infill sites where it contributes to the stock of affordable housing and where it complements Wythenshawe's garden city character. There is also the potential for additional family housing for sale.

Issues

Principle of the Proposal – Given the previous approval on the site and its location within a predominantly residential area, that reason there is no objection in principle to it being redeveloped for residential purposes, particularly when that accommodation will be affordable.

Environmental Standards – The submitted report has confirmed that the following has been incorporated into the scheme:

- Building elements exceeding Building Regulations minimum standards of thermal performance
- Air source heat pumps delivering heating and hot water
- Photovoltaic panels

This has resulted in the properties achieving the following:

- EPC 'A' Rating
- Carbon emission saving of 98.9% or more over target
- Primary energy saving of 71.1% or more over target
- Fabric efficiency rating better than target

Given the above, it is considered that the scheme exceeds the targeted energy and carbon performance identified in the original energy statement report and that as a result is considered acceptable.

Affordable Housing – The application is submitted by Wythenshawe Community Housing Group and it is their intention for the scheme to be 100% affordable, split equally between shared ownership and social rent, with the mix as follows:

- 6 x 2b4p dwellings - Shared Ownership
- 4 x 3b5p dwellings - Shared Ownership
- 8 x 2b4p dwellings - Social Rent
- 2 x 3b5p dwellings - Social Rent

This level of provision is welcomed and would be secured through the development agreement given the City Council's ownership of the site.

Space Standards – The City Council adopted the Manchester Residential Quality Guidance in December 2016 and within that document reference is made to the use of a combination of the Nationally Described Space Standards and the London Housing Design Guide space standards

to form Manchester's space standards for residential developments. The amount of floor space proposed for each dwellinghouse and that required under the guidance is detailed below:

- 14 x 2b4p dwellings – 83m² (Space Standard – 83m²)
- 6 x 3b5p dwellings – 96m² (Space Standard – 96²)

Given the above, the proposal still complies with Manchester's space standards.

Disabled Access – Level access would still be provided into the dwellings and adequate circulation space, along with a WC, would exist on the ground floor. Adequate circulation space would also exist on the first floor. Overall, the provision is considered acceptable.

Design – The external appearance of the proposed dwellings would not be altered by the proposed amendments.

Scale and Massing – Apart from the presence of several apartment blocks, which are between 120 to 200 metres to the north of this site, this residential neighbourhood is characterised by two storey residential accommodation similar in scale and massing to that proposed. As a result, the scale and massing of the proposal remains acceptable.

Residential Amenity – The proposed amendments to the Energy Statement would not have a detrimental impact upon the levels of residential amenity enjoyed by occupants of those dwellings that adjoin the site.

Visual Amenity – The proposed amendments to the Energy Statement would not have a detrimental impact upon the levels of visual amenity enjoyed within the vicinity of the site.

Pedestrian and Highway Safety – The proposed amendments to the Energy Statement would not have a detrimental impact upon the levels of pedestrian and highway safety enjoyed within the vicinity of the site.

Air Quality – During the construction phase of the development there is the potential for air quality impacts as a result of dust emissions from the site. Assuming dust control measures are implemented as part of the proposed works, the significance of potential air quality impacts from dust generated by earthworks, construction and trackout activities is predicted to be negligible.

It is considered that the imposition of a Construction Management Condition would ensure that appropriate dust management measures are implemented during the construction phase. It is recognised that during the operational phase of the development there is the potential for air quality impacts as a result of vehicle exhaust emissions associated with traffic generated by the proposal, i.e. the comings and goings of residents and visitors to the site. However, given the number of units proposed, the overall significance of potential impacts is considered to be low.

As a result of the above and given the provision of vehicle charging points on each dwelling, it is considered that the proposal would not have a detrimental impact upon the air quality levels experienced throughout the site and within the vicinity of it.

Ecology – The proposed amendments would not diminish the proposed biodiversity enhancements required of condition no. 9. **Waste Management** – The waste management provision remains acceptable and in line with the City Council's requirements.

Crime Prevention – The proposal does not raise any crime prevention issues.

Other Legislative Requirements

Equality Act 2010 – Section 149 (Public Sector Equality Duty) of the Equality Act 2010 requires due regard to the need to: Eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Act and; Advance equality of opportunity between persons who share a protected characteristic and persons who do not share it. The Equality Duty does not impose a legal requirement to conduct an Equality Impact Assessment. Compliance with the Equality Duty involves consciously thinking about the aims of the Equality Duty as part of the process of decision-making.

Human Rights Act 1998 considerations – This application needs to be considered against the provisions of the Human Rights Act 1998. Under Article 6, the applicants (and those third parties, including local residents, who have made representations) have a right to a fair hearing and to this end the local planning authority must give full consideration to their comments.

Protocol 1 Article 1, and Article 8 where appropriate, confer(s) a right of respect for a person's home, other land and business assets. In taking account of all material considerations, including Council policy as set out in the Core Strategy and saved policies of the Unitary Development Plan, the Director of Planning, Building Control & Licensing has concluded that some rights conferred by these articles on the applicant(s)/objector(s)/resident(s) and other occupiers and owners of nearby land that might be affected may be interfered with but that that interference is in accordance with the law and justified by being in the public interest and on the basis of the planning merits of the development proposal. She believes that any restriction on these rights posed by the recommendation given is proportionate to the wider benefits of and that such a decision falls within the margin of discretion afforded to the Council under the Town and Country Planning Acts.

Recommendation: Approve

Article 35 Declaration

Officers have worked with the applicant in a positive and proactive manner to resolve any problems arising in relation to dealing with the planning application.

Condition(s) to be attached to decision for approval OR Reasons for recommendation to refuse

1) **CONDITION DISCHARGED.** The development must be begun not later than the expiration of three years beginning with the date of the original planning permission (133576/FO/2022) on 21 October 2022.

Reason - Required to be imposed pursuant to Section 91 of the Town and Country Planning Act 1990.

2) The development hereby approved shall be carried out in accordance with the following drawings:

- a) P-00A, stamped as received on 25 May 2022
- b) P-01D, stamped as received on 29 November 2022
- c) P-02A to P-04A, stamped as received on 25 May 2022
- d) P-05A, stamped as received on 21 April 2022
- e) P-06C, stamped as received on 29 November 2022
- f) P-07 and P-08, stamped as received on 25 May 2022

Reason - To ensure that the development is carried out in accordance with the approved plans. Pursuant to policies SP1 and DM1 of the Manchester Core Strategy.

3) DISCHARGED UNDER APPLICATION CDN/23/0601. Above-ground construction works shall not commence until samples and specifications of all materials, to be used in the external elevations have been submitted to and approved in writing by the City Council as local planning authority. Thereafter the development shall be carried out in accordance with those details.

Reason - To ensure that the appearance of the development is acceptable to the City Council as local planning authority in the interests of the visual amenity of the area within which the site is located, as specified in policies SP1 and DM1 of the Manchester Core Strategy.

4) The residential use hereby approved shall be used only as private dwellings (which description shall not include serviced properties or similar uses where sleeping accommodation (with or without other services) is provided by way of trade for money or money's worth and occupied by the same person for less than ninety consecutive nights) and for no other purpose (including any other purpose in Class C3 of the Schedule to the Town and Country Planning (Use Classes) Order 1987 (as amended), or any provision equivalent to that Class in any statutory instrument revoking and re-enacting that Order with or without modification).

Reason - In the interests of residential amenity, to safeguard the character of the area and to maintain the sustainability of the local community through provision of accommodation that is suitable for private residential purposes and to ensure the achievement of the public benefit identified pursuant to policies SP1, DM1, EN3 , H1, H6 and H11 of the Manchester Core Strategy and the guidance contained within National Planning Policy Framework including section 16.

5) Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 2015 (or any order revoking and re-enacting that Order with or without modification) no garages, outbuildings or extensions shall be erected other than those expressly authorised by this permission.

Reason - To ensure the satisfactory development of the site and in the interest of residential and visual amenity, pursuant to policy DM1 of the Manchester Core Strategy.

6) DISCHARGED UNDER APPLICATION CDN/23/0601. Prior to the commencement of above ground works, a hard and soft landscaping treatment scheme shall be submitted to and be approved in writing by the City Council as local planning authority. The approved scheme shall be implemented not later than 12 months from the date the construction work have been completed. If within a period of 5 years from the date of the planting of any tree or shrub, that tree or shrub or any tree or shrub planted in replacement for it, is removed, uprooted or destroyed or dies, or becomes, in the opinion of the local planning authority, seriously damaged or defective, another tree or shrub of the same species and size as that originally planted shall be planted at the same place.

Reason - To ensure that a satisfactory landscaping scheme for the development is carried out that respects the character and visual amenities of the area, in accordance with policies SP1, EN9 and DM1 of the Manchester Core Strategy.

7) In this condition "retained tree" means an existing tree, shrub or hedge which is to be as shown as retained in the Arboricultural Impact Assessment and Method Statement (ref: BE-1088-04C), stamped as received by the City Council as local planning authority on 29 November 2022; and paragraphs (a) and (b) below shall have effect until the expiration of 5 years from the date of the occupation of the building for its permitted use.

(a) No retained tree shall be cut down, uprooted or destroyed, nor shall any retained tree be topped or lopped other than in accordance with the approved plans and particulars, without the written approval of the local planning authority. Any topping or lopping approved shall be carried out in accordance with British Standard 5387 (Trees in relation to construction)

(b) If any retained tree is removed, uprooted or destroyed or dies, another tree shall be planted at the same place and that tree shall be of such size and species, and shall be planted at such time, as may be specified in writing by the local planning authority.

(c) The erection of fencing for the protection of any retained tree shall be undertaken in accordance with the approved plans and particulars before any equipment, machinery or materials are brought on to the site for the purposes of the development, and shall be maintained until all equipment, machinery and surplus materials have been removed from the site. Nothing shall be stored or placed in any area fenced in accordance with this condition and the ground levels within those areas shall not be altered, nor shall any excavation be made, without the written consent of the local planning authority.

Reason - In order avoid damage to trees/shrubs adjacent to and within the site which are of important amenity value to the area and in order to protect the character of the area, in accordance with policies EN9 and EN15 of the Manchester Core Strategy.

8) DISCHARGED UNDER APPLICATION CDN/23/0524. The demolition of the Oakwood Resource Centre shall not commence until either of the following has been submitted to and been approved by the City Council as local planning authority:

a) A licence issued by Natural England pursuant to Regulation 55 of The Conservation of Habitats and Species Regulations 2017 authorizing the specified activity/development to go ahead; or

b) A statement in writing from the relevant licensing body to the effect that it does not consider that the specified activity/ development will require a licence.

Reason - To ensure the protection of species or their habitat that are protected under the Wildlife and Countryside Act 1981 or as subsequently amended in order to comply with policy EN15 of the Manchester Core Strategy.

9) DISCHARGED UNDER APPLICATION CDN/23/0601. Above grounds works shall not commence until details of biodiversity enhancements (bird boxes and bat bricks), including a timetable for their installation and maintenance regime, have been submitted to and been approved by the City Council as local planning authority. The development shall be carried out in accordance with the agreed details.

Reason - To ensure the protection of habitat of species that are protected under the Wildlife and Countryside Act 1981 or as subsequently amended in order to comply with policy EN15 of the Manchester Core Strategy.

10) No removal of or works to any hedgerows, trees or shrubs shall take place during the main bird breeding season 1st March and 31st July inclusive, unless a competent ecologist has undertaken a careful, detailed check of vegetation for active birds' nests immediately before the vegetation is cleared and provided written confirmation that no birds will be harmed and/or that there are appropriate measures in place to protect nesting bird interest on site. Any such written confirmation should be submitted to the local planning authority.

Reason - To ensure the protection of habitat of species that are protected under the Wildlife and Countryside Act 1981 or as subsequently amended in order to comply with policy EN15 of the Manchester Core Strategy.

11) DISCHARGED UNDER APPLICATION CDN/23/0524. Prior to any earthworks, demolition or vegetation clearance, a Reasonable Avoidance Measures method statement for hedgehogs, for both site clearance and the construction phase and including a timetable for their installation and maintenance regime, have been submitted to and been approved by the City Council as local planning authority. The development shall be carried out in accordance with the agreed details.

Reason - To ensure the protection of habitat and species that are protected under the Wildlife and Countryside Act 1981 or as subsequently amended in order to comply with policy EN15 of the Manchester Core Strategy.

12) DISCHARGED UNDER APPLICATION CDN/24/0948. Before the development hereby approved is first occupied a detailed Travel Plan, based on the submitted Transport Statement, stamped as received on 21 April 2022, shall be submitted to and agreed in writing by the City Council as Local Planning Authority. In this condition a Travel Plan means a document which includes:

- i) the measures proposed to be taken to reduce dependency on the private car by those residing at the development,
- ii) a commitment to surveying the travel patterns of staff during the first three months of use of the development and thereafter from time to time,
- iii) mechanisms for the implementation of the measures to reduce dependency on the private car,
- iv) measures for the delivery of specified travel plan services,
- v) measures to monitor and review the effectiveness of the Travel Plan in achieving the objective of reducing dependency on the private car.

Within six months of the first use of the development, a Travel Plan which takes into account the information about travel patterns gathered pursuant to item (ii) above shall be submitted to and approved in writing by the City Council as local planning authority. Any Travel Plan which has been approved by the City Council as local planning authority shall be implemented in full at all times when the development hereby approved is in use.

Reason - To assist promoting the use of sustainable forms of travel, pursuant to policies SP1, T2 and DM1 of the Manchester Core Strategy and the Guide to Development in Manchester SPD (2007).

13) No above ground works shall take place until surface water drainage works have been implemented in accordance with Non-Statutory Technical Standards for Sustainable Drainage Systems (March 2015) or any subsequent replacements national standards and details that have been submitted to and approved in writing by the Local Planning Authority.

Reason - To promote sustainable development, secure proper drainage and to manage the risk of flooding and pollution, in light of national policies within the NPPF and NPPG and Policies EN08 and EN14 in the Manchester Core Strategy.

14) No development hereby permitted shall be occupied until details of the implementation, maintenance and management of the sustainable drainage scheme have been submitted to and approved by the local planning authority. The scheme shall be implemented and thereafter managed and maintained in accordance with the approved details. Those details shall include:

- Verification report providing photographic evidence of construction as per design drawings;
- As built construction drawings if different from design construction drawings;

- Management and maintenance plan for the lifetime of the development which shall include the arrangements for adoption by any public body or statutory undertaker, or any other arrangements to secure the operation of the sustainable drainage scheme throughout its
- lifetime.

Reason - To manage flooding and pollution and to ensure that a managing body is in place for the sustainable drainage system and there is funding and maintenance mechanism for the lifetime of the development, in light of national policies within the NPPF and NPPG and Policies EN08 and EN14 in the Manchester Core Strategy.

15) DISCHARGED UNDER APPLICATION CDN/24/0221. Part A) Before the development hereby approved commences, a report (the Preliminary Risk Assessment) to identify and evaluate all potential sources and impacts of any ground contamination, groundwater contamination and/or ground gas relevant to the site shall be submitted to and approved in writing by the City Council as local planning authority. The Preliminary Risk Assessment shall conform to City Council's current guidance document (Planning Guidance in Relation to Ground Contamination).

In the event of the Preliminary Risk Assessment identifying risks which in the written opinion of the Local Planning Authority require further investigation, the development shall not commence until a scheme for the investigation of the site and the identification of remediation measures (the Site Investigation Proposal) has been submitted to and approved in writing by the City Council as local planning authority.

The measures for investigating the site identified in the Site Investigation Proposal shall be carried out, before the development commences and a report prepared outlining what measures, if any, are required to remediate the land (the Site Investigation Report and/or Remediation Strategy) which shall be submitted to and approved in writing by the City Council as local planning authority.

Part B) When the development commences, the development shall be carried out in accordance with the previously agreed Remediation Strategy and a Completion/Verification Report shall be submitted to and approved in writing by the City Council as local planning authority.

In the event that ground contamination, groundwater contamination and/or ground gas, not previously identified, are found to be present on the site at any time before the development is occupied, then development shall cease and/or the development shall not be occupied until, a report outlining what measures, if any, are required to remediate the land (the Revised Remediation Strategy) is submitted to and approved in writing by the City Council as local planning authority and the development shall be carried out in accordance with the Revised Remediation Strategy, which shall take precedence over any Remediation Strategy or earlier Revised Remediation Strategy.

Reason - To ensure that the presence of or the potential for any contaminated land and/or groundwater is detected and appropriate remedial action is taken in the interests of public safety, pursuant to policies DM1 and EN18 of the Manchester Core Strategy.

16) The highway improvements, as shown on drawing no. P-01D, stamped as received on 29 November 2022, shall be implemented and be in place prior to first use of the development hereby approved and thereafter retained and maintained in situ.

Reason - In the interest of pedestrian and highway safety pursuant to Policies SP1, EN1 and DM1 of the Manchester Core Strategy.

17) The development hereby approved shall be implemented in full accordance with the measures as set out within the Post Completion Energy Statement Report (ref. PG/SL/1689 - Rev A),

received on 10 February 2025, including: measures to secure predicted carbon emissions and the attainment of specified environmental efficiency and performance.

Reason - In order to minimise the environmental impact of the development pursuant to Policies SP1, T1-T3, EN4-EN7 and DM1 of the Core Strategy for the City of Manchester and the principles contained within The Guide to Development in Manchester SPD (2007) and the National Planning Policy Framework.

18) DISCHARGED UNDER APPLICATION CDN/24/0293. No above ground works shall commence until details of the measures to be incorporated into the development (or phase thereof) to demonstrate how Secured by Design accreditation will be achieved have been submitted to and approved in writing by the City Council as local planning authority. The development shall only be carried out in accordance with these approved details. The development hereby approved shall not be occupied or used until the Council as local planning authority has acknowledged in writing that it has received written confirmation of a Secured by Design accreditation.

Reason - To reduce the risk of crime pursuant to policies SP1 and DM1 of the Manchester Core Strategy and to reflect the guidance contained in the National Planning Policy Framework.

19) DISCHARGED UNDER APPLICATION CDN/23/0524. No development shall take place, including any demolition works, until a construction management plan or construction method statement has been submitted to and approved in writing by the Local Planning Authority. The approved plan/statement shall be adhered to throughout the demolition/construction period. The plan/statement shall provide for:

- A construction programme including phasing of works;
- 24 hour emergency contact number;
- Expected number and type of vehicles accessing the site: Deliveries, waste, cranes, equipment, plant, works, visitors; Size of construction vehicles; The use of a consolidation operation or scheme for the delivery of materials and goods; Phasing of works;
- Means by which a reduction in the number of movements and parking on nearby streets can be achieved (including measures taken to ensure satisfactory access and movement for existing occupiers of neighbouring properties during construction): Programming; Waste management; Construction methodology; Shared deliveries; Car sharing; Travel planning; Local workforce; Parking facilities for staff and visitors; On-site facilities; A scheme to encourage the use of public transport and cycling;
- Routes for construction traffic, avoiding weight and size restrictions to reduce unsuitable traffic on residential roads;
- Locations for loading/unloading, waiting/holding areas and means of communication for delivery vehicles if space is unavailable within or near the site;
- Locations for storage of plant/waste/construction materials;
- Arrangements for the turning of vehicles, to be within the site unless completely unavoidable;
- Arrangements to receive abnormal loads or unusually large vehicles;
- Swept paths showing access for the largest vehicles regularly accessing the site and measures to ensure adequate space is available;
- Any necessary temporary traffic management measures;
- Measures to protect vulnerable road users (cyclists and pedestrians);
- Arrangements for temporary facilities for any bus stops or routes;
- Method of preventing mud being carried onto the highway;
- Methods of communicating the Construction Management Plan to staff, visitors and neighbouring residents and businesses.

Manchester City Council encourages all contractors to be 'considerate contractors' when working in the city by being aware of the needs of neighbours and the environment. Membership of the Considerate Constructors Scheme is highly recommended.

Reason: In the interests of safe operation of the adopted highway in the lead into development both during the demolition and construction phase of the development, pursuant to policies SP1, EN19 and DM1 of the Manchester Core Strategy.

20) DISCHARGED UNDER APPLICATION CDN/23/0601. Prior to the commencement of above ground works, detailed drawings of the front boundary treatment shall be submitted to and be approved in writing by the City Council as local planning authority. The approved scheme shall be implemented prior to the occupation of the development hereby approved.

Reason - To ensure that a satisfactory landscaping scheme for the development is carried out that respects the character and visual amenities of the area, in accordance with policies SP1, EN9 and DM1 of the Manchester Core Strategy.

21) DISCHARGED UNDER APPLICATION CDN/23/0601. Above-ground construction works shall not commence until details of the electric vehicle charging systems to be installed on the development have been submitted to and approved by the City Council as Local Planning Authority. The approved charging systems shall then be installed in accordance with a timetable to be agreed with the City Council as Local Planning Authority.

Reason - To promote sustainable development and in the interests of residential amenity, pursuant to Policies DM1 and EN16 in the Manchester Core Strategy.

22) Prior to the occupation of the development hereby approved, the cycle storage facilities, as shown on drawing no. P-01D (stamped as received on 29 November 2022), shall be installed and thereafter maintained so long as the development is in situ.

Reason - To assist promoting the use of sustainable forms of travel, pursuant to policies SP1, T2 and DM1 of the Manchester Core Strategy and the Guide to Development in Manchester SPD (2007).

23) a) Externally mounted ancillary plant, equipment and servicing shall be selected and/or acoustically treated in accordance with a scheme designed so as to achieve a rating level of 5dB (LAeq) below the typical background (LA90) level at the nearest noise sensitive location. Prior to commencement of the use hereby approved the scheme shall be submitted to and approved in writing by the City Council as local planning authority in order to secure a reduction in the level of noise emanating from the site. The scheme shall be implemented in full before the use commences or as otherwise agreed in writing by the City Council as local planning authority.

b) Prior to the operation of the scheme a verification report shall be submitted to and approved in writing by the City Council as local planning authority to validate that the work undertaken throughout the development conforms to the recommendations and requirements in the approved acoustic report. The report shall also undertake post completion testing to confirm that the noise criteria have been met. Any instances of non-conformity with the recommendations in the report shall be detailed along with any measures required to ensure compliance with the agreed noise criteria.

Reason - To minimise the impact of the development and to prevent a general increase in pre-existing background noise levels around the site, pursuant to Policy DM1 in the Manchester Core Strategy and Saved UDP Policy DC26.
