Commenter Type: Neighbour

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I support this space being used to benefit children and young people in the area. It is important that there are appropriate facilities for children and young people to play and socialise in a way that supports their development and is also beneficial to the wider community. The space is already used by families, children and young people but there needs to be more structured facilities to support teenagers in particular who I have seen use the space to smoke. It would be better if they had other, more positive activities which they can engage in locally. This location is ideal to be a dedicated space for children and young people given its local proximity to several primary schools and the high number of families living in the area.
