Dear Sir/Madam

Re: Waste Management

With regards to the above I can confirm facilities listed and detailed in the documents below will be provided and retained on site to manage waste and aid recycling.

- Waste management strategy.
- Recycling bin size details/table included on page 36 of the approved D&A.
- *L0206-114 Rev A-Recycle Store*. Details the appearance of the refuse store.
- *L0206-105 Rev B 'Proposed Site Plan*. Shows location of recycling / refuse store on the site.

In addition each dining room will have separate recycling bins, for plastics & cans, cardboard and general waste. Food waste is collected separately and then taken straight to the external bins. Clinical waste is treated separately in the Home and that waste collection is kept within staff only areas until it is deposited in the dedicated external bin for collection. The external bin compound will have separate recycling bins for food waste, plastic & cans, cardboard, general waste and clinical waste.

Yours faithfully

A.R.Williams

Development Director
