

The Horizontal 2 Bike Locker Information Sheet

The Horizontal 2 Bike Locker

Unleash the hidden potential of your office, train station, or apartment building. The Horizontal 2 Bike Locker transforms underutilised space into a secure haven for cyclists. This compact, all-steel unit boasts a new 3-point locking system, doubling your bike storage capacity while keeping hallways and common areas clutter-free. Cyclists can leave their bikes and gear worry-free, maximising convenience for tenants, employees, or commuters.

This unit is constructed entirely of steel and boasts a new 3-point locking system, providing superior protection for bikes, helmets, and gear. Looking for a bike storage solution that seamlessly integrates into your space? The Horizontal 2 Bike Locker's sleek design complements any environment. Its compact footprint allows for flexible installation, maximising space utilisation without sacrificing aesthetics.
