Gantry, Science and Industry Museum, Liverpool Road, Manchester, M3 4FP –
Application for discharge of Conditions 6a, 6b & 7 attached to Listed Building
Consent Ref: 138102/LO/2023

Please find enclosed application for full discharge of Conditions 6a, 6b & 7 attached to this Listed Building Consent Ref:138102/LO/2023. This listed building consent relates to the 'Listed Building Consent for the refurbishment, repair, and redecoration of The Gantry crane structure. Works shall include the stripping of paint, introduction of new waterproofing measures, including at its juncture with the adjacent Power Hall, the introduction of bird protection measures, carrying out of structural repairs and repainting, and other associated works.'

The Applicant is the Science and Industry Museum (on behalf of the Science Museum Group (SMG)).

Condition 6a

This application seeks to fully discharge Condition 6a.

6a) Notwithstanding the details as set out in condition 2 above, following the inspection and assessment of the crane hook, and prior to the commencement of any works associated with the travelling crane, the full details of the findings of the inspection and assessment of the crane hook shall be submitted to the City Council as Local Planning Authority.

To discharge Condition 6a, a methodology document has been prepared and submitted as part of this application, reference: SIM, CP - Gantry Crane Hook Methodology - REV A 17.04.25, which is inclusive of structural repair drawing reference: SIM- BHE-GA-XX-SK-S-0009, for the crane hook detail (Type 9 Repair).

Condition 6b

This application seeks to fully discharge Condition 6b.

6b) Following the discharge of condition 6a, the full and final details of the proposals for the works to be undertaken to the travelling crane shall be submitted to and approved by the City Council as Local Planning Authority. The approved details shall then be implemented as part of the development.

To discharge Condition 6b, a methodology document has been prepared and submitted as part of this application, reference: SIM, CP - Gantry Crane Hook Methodology - REV A 17.04.25, which is inclusive of structural repair drawing reference: SIM- BHE-GA-XX-SK-S-0009, for the crane hook detail (Type 9 Repair), this repair represents the full and final detail for the crane hook repair works.

Condition 7

This application seeks to fully discharge Condition 7.

7) Notwithstanding the details as set out in condition 2 above, prior to the commencement of any works that will involve elements of the structure being dismantled and removed to either inspect or repair, which may include taking these elements off site, the full details of this dismantling and removal process, including a methodology for the dismantling and removal, shall be submitted to and approved by the City Council as Local Planning Authority. The approved details shall then be implemented as part of the development.

To discharge Condition 7, we write to confirm that no elements or components were dismantled and/or removed from the structure. All repair works were undertaken insitu within a fully tented enclosure, as per repair packages detailed and provided within Condition 3, which has been fully discharged.

Summary

This application seeks the full discharge of conditions 6a, 6b & 7 attached to ref: 138102/LO/2023 as described and detailed above.

We trust this application is in order and is an accurate representation of prior discussions / correspondence and request the Local Planning Authority's written consent that the enclosed information is sufficient to allow the full discharge of these conditions.

Yours sincerely

Alex Scrimshaw | Associate
