Condition(s) - Variation/Removal

Please state why you wish the condition(s) to be removed or changed

Following further investigation, our structural engineer has advised that constructing the two new gable ends in brick would require significant underpinning, which could compromise the existing foundations and potentially impact the mature lime street tree adjacent to our southern boundary.
This material was already approved for the dormers under our existing permission 135951/FH/2023 and we feel its use across the gables would provide a consistent and high-quality finish to the dwelling.

If you wish the existing condition to be changed, please state how you wish the condition to be varied

We propose to use a standing seam cladding system for the gable ends as shown on drawing 16-0015D-21-004 Proposed Elevations.
