

The Contractor is to check and verify all building and site dimensions, levels and sewer invert levels at connection points before work starts. This drawing must be read with and checked against the standard and other special drawings provided.

The Contractor is to comply in all respects with the current Building Regulations whether or not specifically stated on these drawings.

This drawing is not intended to show details of foundation or ground conditions. Each area of ground relied upon to support the structure depicted must be investigated by the Contractor and suitable methods of foundation be provided.

NOTE:

NOTE: ALL DIMENSIONS TO BE CHECKED ON SITE AND ANY DISCREPANCIES REPORTED TO THE DESIGNER PRIOR TO COMMENCEMENT OF WORKS.

EXTERNAL WALL

ROOF TILE HATCH

The image shows two rectangular boxes, each containing a different hatch pattern. The top box contains a brick pattern, consisting of a grid of small rectangles with horizontal lines, representing a brick wall. The bottom box contains a roof tile pattern, consisting of a grid of small rectangles with diagonal lines, representing roof tiles.
