Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment:I am a regular customer of Something More Productive, and I live a short walk away in Withington. I see no reason why this application for a modest extension to the business' opening hours should not be approved. It is a wonderful cafe and bar, and works so hard to retain a loyal customer base and become an important part of the Withington community.

Withington is already an area with numerous late night establishments, and I know Something More Productive would be very responsible in their handling of their business to make sure noise is kept to a minimum and its customers leave quietly and sensibly.

If this application is not granted then it puts the future of the business at considerable risk. Another business closing on this premises would be a great shame, and in this hard economic climate especially for the hospitality industry I think it would be difficult to start a new business in its place-- a venue sitting empty is good for no one.

That is ultimately why I support this application--its refusal would be bad for the business, perhaps existentially, and if the business is to go then that would be bad for Withington, and the people of this city.
