Hi Brian

What are the specs of the system and details of the filtration end result?

Cheers

Shahid

Hi Shahid,

As you mentioned to us today, the description and specifications of the commercial kitchen extraction we will use are shown below:

- 1. Stainless Steel Baffle Filters*
- 2. High quality stainless steel construction*
- 3. Commercial grade extraction fan - with connection pieces*
- 4. A 90 degree bend and an external termination cowl.*
- 5. Commercial ductwork 1.5 metre length (more on request)*
- 6. The kit comes with a speed controller and can be pre-wired if you are unsure on the connections.*
- 7. We can customise the kit if required with more bends and longer ductwork, please contact us with your requirements and we will send you a purpose built quotation with everything you need.*

Please let me know what else information you need us to provide with?

Regards

Brian
