

Waste Management Strategy

GSS24118 – 27-29 Middleton Road

We are writing to confirm the waste managements scheme for 27-29 Middleton Road.

The owner will be responsible for overseeing the maintenance of the entire building. Waste will be collected weekly by a private waste management company. The refuse store will be located at the rear of the site, next to the parking area, and enclosed within a vertical timber-clad storage unit for security.

On collection day, the owner will move the waste bins to the pavement, and once collection is complete, they will promptly return them to the designated storage area.

Please refer to the proposed site plan and the waste management strategy proforma for additional information.
