Comment:

Traffic, parking, and road safety concerns in the area are significant. The Kingsway junction is already a hotspot for accidents, with frequent road traffic incidents. Increased traffic from local businesses, especially takeaways at Kingsway/Mauldeth Road, makes crossing difficult for pedestrians.

Nearby residential roads, such as Avonlea Drive and Brookthorpe Avenue, suffer from inadequate parking, and recent council complaints highlight issues with refuse collection access.

Existing parking restrictions on Mauldeth Road indicate council awareness of these issues, while Broadhill Road faces congestion from school traffic, commuters etc. The proposed housing development lacks sufficient parking - poorly consideration given on safety and parking, with narrow roads designed for maximum housing density, likely worsening pavement parking and congestion.

Residents question the impartiality of developer-led surveys and the council's decision to consider the proposal despite evident safety and parking problems. A recent major accident on 20th March 2025 underscores these concerns. The absence of an independent traffic and safety survey raises doubts about the planning process. Despite strong opposition at a public consultation, residents feel their concerns have been ignored and urge councillors to conduct thorough independent assessments.

In addition there is no consideration on the impact on other local services such as GP appointments and access. Local surgeries are full and not taking on new patients.

However I know that this is a forgone conclusion as Manchester City Council is corrupt and has taken bribes for it to pass. I implore you that youth fear Allah as He should be feared and very soon I shall be proof for you or against you on the Day of Resurrection.
