

Project Title: Powerleague Nicholls Padel Centre

Location: Nicholls Community Sports Ground, Dalberg Street, Manchester, M12 6BN

Date of Report: 13/03/2025

Prepared by: Bill Jenkinson

Summary

This report confirms the completion of works at the new Powerleague Padel Centre and outlines the findings related to contamination during the project. At no point during the construction or development phases was contamination identified or reported. All activities were conducted in compliance with relevant environmental and health regulations.

Monitored Works

- Site clearance including vegetation and topsoil removal from site
- Regrading of existing subsoil
- Installation of canopy bases and padel court concrete ring beams
- Installation of drainage and Ducting
- Landscaping

Method of Monitoring

WAC Testing was carried out prior to works commencing on site. Whilst works were in progress, regular visual monitoring of materials as they were excavated, exported and banded was undertaken and recorded. Given excavation depths were kept to a minimum; there had been no evidence of contaminated ground.
