

Access Management Plan

Site: A538 Lay-By, Wilmslow Old Road, Manchester M90 5AA

Drawing Reference: 24-1004-C-03 RevB - Proposed GA Drawings

1. Gate Access Schedule

- Main Entrance Gate:

The main gate (Gate 1) will remain open during general operating hours only, ensuring control of access outside these periods.

- Gate 2 - Access to Food Truck B Zone:

Gate 2 will be open during breakfast service hours only, aligned with the operating time of Food Truck B. Outside of these hours, the gate will be closed to manage traffic and improve safety.

- Gate 3 - Access to Food Truck A Zone:

Gate 3 will be open only during lunch and dinner periods when Food Truck A is in operation. This approach will minimize unnecessary access and enhance on-site control.

2. Vehicle Movement and Parking Control

- Short Stay Area:

Signage will clearly indicate that parking is limited to 15 minutes maximum. This applies to customers accessing food trucks and discourages long-term vehicle idling or misuse of parking bays.

- Staff Management:

Trained on-site staff will be stationed during operating hours to monitor vehicle movement, assist with access, and enforce the parking duration. Staff will also be responsible for directing vehicles and maintaining safety standards.

3. Large Vehicle Policy

- Standard Vehicle Limitations:

The largest permitted vehicles on-site are mini-vans. Any vehicles larger than this will:

Access Management Plan

- Require staff escort and guidance for access.
- Or be restricted from entering the site entirely, depending on size and timing.

- Refuse Collection Vehicles:

Access for refuse trucks and any maintenance service vehicles will be scheduled outside of operating hours to avoid conflict with pedestrian and customer traffic.

4. Infrastructure Support

- Barriers and Bollards:

Movable barriers and new bollards will help guide vehicles into appropriate zones and reinforce restricted areas.

- Signage Placement:

Adequate signage will be installed to:

- Indicate short stay restrictions.
- Mark no-parking zones.
- Show directional flow of traffic and gate-specific access rules.

5. Additional Notes

Note: No waste will be collected from Wilmslow Road. All refuse vehicles will access the site post-operating hours via internal access routes only, ensuring minimal disruption to surrounding areas.
