

AMAZON ECO 2 CYCLE LOCKER

Our Space Saving Cycle Locker

The Amazon Eco 2 Cycle Locker is sturdy with 3mm solid steel roofing, double lockable swing gates, and fully clad in clear sealed pine. It's designed to fit two standard-sized cycles, which is ideal for all domestic locations. Whether you're working on a large housing project or are looking for a cycle store for your home, it's a great solution. Instead of stepping outside and seeing overflowing cycles, you can store them away securely. The swing gates open wide enough, so there is plenty of room to manoeuvre two cycles in and out. You can also choose a powder-coated finish in various RAL colours to personalise your locker.

- Robust Steel Framework Designed For External Use
- Locker Clad With 100x20 Or 50x25 Timber Battens
- Galvanised Finish To Bs En Iso 1461: 2022
- Optional Polyester Powder Coating To An Agreed Ral
- Supplied With Internal Locking Points That Secure 2 Bikes
- Range Of Hinge & Locking Mechanisms Offered
- 12-Month Warranty & Made In Britain

PROJECT:

Grange Farm, Harrow

Higgins Construction partnered with our company to deliver a bespoke bike and bin storage solution at Grange Farm, a residential development in Harrow, London. As part of their commitment to enhancing the environment and community infrastructure, Higgins required a durable, eco-friendly, and aesthetically pleasing storage solution for residents. Our team designed, manufactured, and installed custom Amazon Eco Cycle Lockers and Bin Stores, providing functional and secure spaces for bikes and waste storage.

We proposed a bespoke solution for this project using our Amazon Eco Cycle Lockers and Amazon Eco Bin Stores. These units were tailored to meet the project's design, functional, and environmental requirements. The installation was performed with minimal disruption to the residents and construction team. Our process adhered to several site-specific requirements:

This project is a testament to our ability to deliver custom storage solutions that blend functionality, security, and aesthetic appeal while meeting high sustainability standards.
