

01 Herbaceous Planting

1:20 @ A3

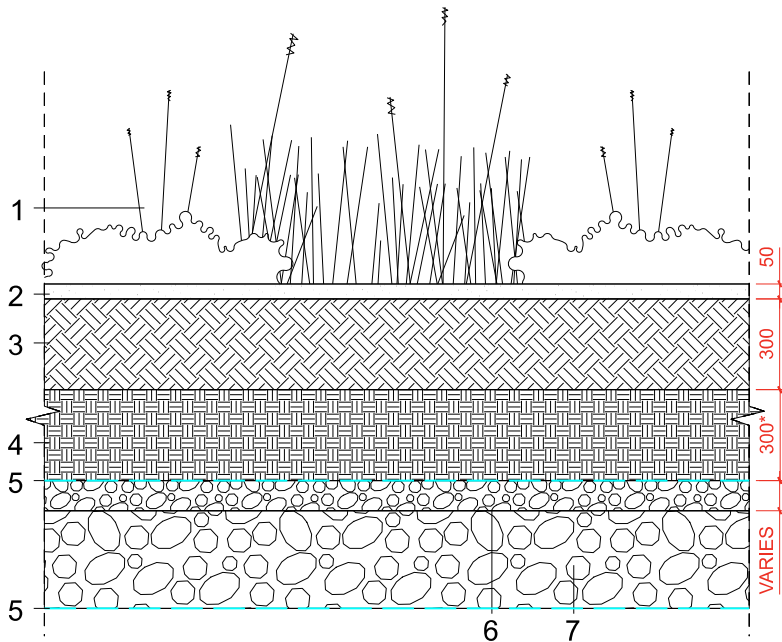

1. Planting proposals.
2. Mulch layer 50mm depth. **Refer to spec clause Q31/493A**
3. Landscape Topsoil. **Refer to spec clause Q28A/210**
4. Landscape Subsoil. **Refer to spec clause Q28A/215**  
\*Increase subsoil depth in tree trenches. Tree trenches are shown on SEW GA 0198\_MAY-SEW-SW1-ZZZZ-DR-L-001110.
5. Terra firma.
6. When sandstone or clay alluvium/ glacial till is within 500mm of the formation layer, Contractor to carry out percolation tests using BRE 365 testing specification. If test fails then include 150mm drainage layer.

Coordination item:  
Civil engineer to review rain garden build up and notes on percolation

02 Rain Garden

1:20 @ A3

1. Planting proposals.
2. Mulch layer 50mm depth. **Refer to spec clause Q31/493A**
3. Rain Garden Topsoil. **Refer to spec clause Q28A/255**
4. Landscape Subsoil. **Refer to spec clause Q28A/215**  
\*Increase subsoil depth in tree trenches. Tree trenches are shown on SEW GA 0198\_MAY-SEW-SW1-ZZZZ-DR-L-001110.
5. 305gsm hessian separation layer with 100mm laps up abutting faces and 300mm laps at joins.
6. Free draining stone if required above 'Top of storage' level to rain garden. **Refer to spec clause Q28A/300**
7. Rain garden aggregate. Refer to engineer's detail and specification.

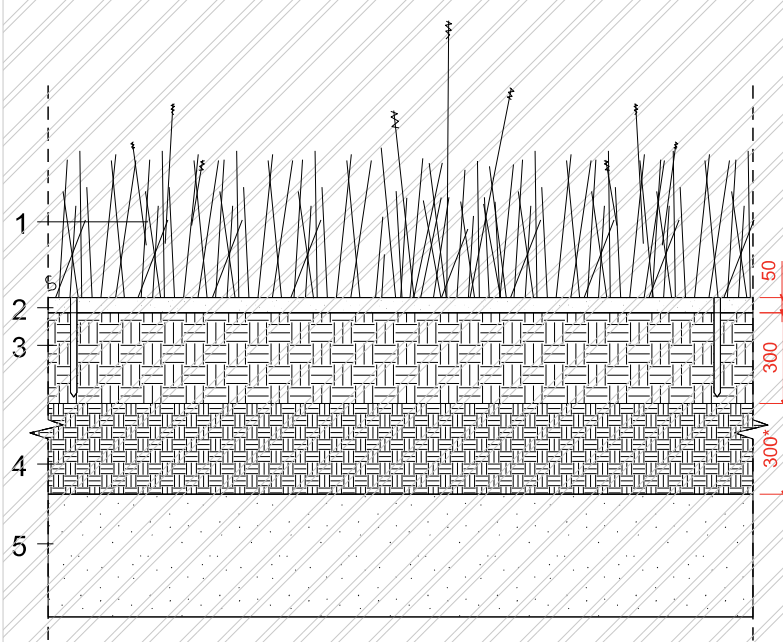

Note: Detail to be read in conjunction with SEW Rain Garden details 0198\_MAY-SEW-SW1-ZZZZ-DR-003107 & 003108.

Coordination item:  
Civil engineer to review rain garden build up and notes on percolation

NOTE: Detail omitted for delivery of The Republic Stage 4A External works pack

03 Wildflower Turf

1:20 @ A3

1. Pre-grown turf. For planting on slopes use biodegradable pegs to suppliers recommendation.
2. Mulch layer 50mm depth. **Refer to spec clause Q31/493A**
3. Landscape Topsoil. **Refer to spec clause Q28A/210**
4. Landscape Subsoil. **Refer to spec clause Q28A/215**  
\*Increase subsoil depth in tree trenches. Tree trenches are shown on SEW GA 0198\_MAY-SEW-SW1-ZZZZ-DR-L-001110.
5. Terra firma.
