Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: Amberley Drive is already a dangerous road due to the narrowness and the sharp bend. Cars drive round that bend far too quickly and sometimes not on the left of the road and putting houses ON the bend, which will likely bring about more traffic and more cars parked on the road can only cause problems. There has to be something done to make the road safer if the houses are going to be built.

This small area is already densely populated and I can't believe another 8 houses are going to be squeezed into the last bit of green we have. I'm also concerned about the wildlife in the area - the birds, squirrels, hedgehogs and foxes in and around the hedges and the brook - what is going to happen to them?!

the noise and mess the building will create will be unbearable. Hopefully there will be a restriction as to the times the building work takes place during the day, although that won't help the people who work nights of course.
