Departure from Development Plan: No

Environmental Statement: Not required

Description of site/building

The application relates to the part six, part three storey building present at 340 Deansgate. The application property is a contemporary building dating from the early 2000's that fronts out onto Deansgate, with its rear elevation facing out onto Southern Street. The building is completed in sandstone and red brick, with a glazed rooftop extension and glazed panels to its ground floor facing out onto Deansgate. The property's windows all feature an exposed RSJ situated above them. The use of the site is commercial office space (Class E).

Listed building: Not applicable

Conservation area: Castlefield Conservation Area 1979

Tree Preservation Order: Not applicable

Description of area

The neighbouring area lies within Manchester City Centre and the Castlefield Conservation Area. Neighbouring built development is characterised by smaller scale older properties to the west of the site along Liverpool Road and the Bridgewater Canal. To the east along Deansgate more modern higher density development is present at Beatham Tower and Viadux. Uses toward the east are largely commercial Class E units, with development to the west being a mix of residential and some smaller scale commercial units and office space.

Description of development

The application seeks planning permission for the insertion of an automatic sliding door entrance, a rear security door and 2no louvres.

The proposed glazed sliding door entrance would be situated within the property's front elevation facing out onto Deansgate within a set of existing glazed windows situated immediately to the north of the property's main entrance. The door would provide a dedicated access to a self-contained ground floor commercial unit.

To the rear of the building 3no windows at ground floor would be removed, being replaced with a security door, that would function as a rear exit, and 2no louvres to provide fume extraction for the aforementioned commercial unit. The louvres would be designed so as to feature a decorative pattern to match that of the upper floors.

Planning History

141498/FO/2024 - Installation of 4 no. new ventilation panels to the rear elevation – Approved December 2024.

139599/FO/2024 - Installation of 4 no. new external louvres to the rear elevation of 340 Deansgate, in association with the installation of a new ventilation system to increase airflow at the first and second floors – Withdrawn June 2024.

Consultations & Notification Responses

Environmental Health – No objection subject to a condition requiring the submission of an acoustic verification condition.

Highways – No objection subject to a condition requiring the submission of a construction management plan.

Publicity – None received.

Policy

The Manchester Core Strategy – Development Plan Document 2012-2027 (“the Core Strategy”) was adopted by the City Council on the 11th of July 2012:

- Policy SP1 – Spatial Principles
- Policy EC2 – Existing Employment Space
- Policy EC3 – The Regional Centre
- Policy CC1 – Primary Economic Development Focus: City Centre and Fringe
- Policy CC2 – Retail
- Policy CC9 – Design and Heritage
- Policy CC10 – A Place for Everyone
- Policy EN1 – Design Principles and Strategic Character Areas
- Policy EN3 – Heritage
- Policy DM1 – Development Management

Saved Unitary Development Plan for Manchester – The following saved UDP Policies are of relevance to this application:

- Policy DC18 – Conservation Areas
- Policy DC26 – Development and Noise

The Places for Everyone Plan – Joint Development Plan Document, for nine of the 10 boroughs which make up Greater Manchester adopted on 21st of March 2024:

- Policy JP-Strat2 – City Centre
- Policy JP-P2 – Heritage

National Planning Policy Framework (NPPF)

- Chapter 12 – Achieving well-designed and beautiful places
- Chapter 16 – Conserving the Historic Environment

Other Legislative Requirements

Planning (Listed Buildings and Conservation Areas) Act 1990

Issues

Principle of the development

The application relates to a vacant part of the ground floor of 340 Deansgate, formally used as offices. The proposed development would see the insertion of 2no doors and 2no louvres to allow for the creation of a self-contained commercial Class E unit. Given the use of the application site as offices, changes within Class E benefit from permitted development rights so the consideration of the change of use does not constitute part of the submission. Notwithstanding this, the proposal would create a more attractive and practical offer for potential retail occupiers, assisting in securing the occupation of a piece of disused commercial space, thereby assisting the ongoing regeneration of Manchester City Centre. In light of this the proposal is considered to accord with Core Strategy Policies EC2, EC3, CC1, CC2 and DM1, and Places for Everyone Plan Policy JP-Strat2 in principle subject to the matters discussed below.

Visual Amenity

The application site and street scene of Southern Street is characterised by low-lying properties that are typical of those found within the Castlefield Conservation Area, with newer builds of the same scale also being present. Conversely, Deansgate, is characterise by taller buildings that utilise a more contemporary design. The application site as existing is a modern edition within the street scene that respects its scale and adds some visual interest with its exposed RSJs. The proposed ventilation panels are to match those already installed on site, see picture below, as well as be reminiscent of those located on no8-10 Southern Street located opposite the application site (pictured below). The proposed design is a floral pattern that would add further visual interest to the property, as well as provide a degree of symmetry with the ventilation panels approved on the northern half of the property's Southern Street elevation.

The proposed sliding door entrance would be situated within an existing glazed opening and a slim frame would be utilised to minimise its visual impact. It is considered necessary to condition the material finishes of both proposed doors and louvres in order to confirm their appropriateness.

On this basis, subject to planning condition, the proposal is considered would have a neutral impact on visual amenity, the appearance of the host property and local street scene in accordance with Core Strategy Policies EN1 and DM1.

Heritage

As stated previously within this report, the application site lies within the Castlefield Conservation Area. The street scene of Southern Street is considered to be of lesser importance than most principal roads running through the conservation area but its contribution, especially when paired with other smaller side roads such as Barton Street, Collier Street and Bridgewater Street, gives the Conservation Area its own distinctive look and is thus of historical significance. Conversely Deansgate, as a major arterial road is subject to larger scale development that nonetheless is well-designed and forms its own distinct character and appearance. The application site as a modern but well-designed property, which is considered makes a neutral contribution to the significance of the street scene.

In line with the comments above, the proposed decorative louvred panels would replace existing tinted windows and thus would not undermine how the property interacts with the street scene along Southern Street. Furthermore, it is considered the panels would provide visual interest that would be consistent with the ventilation panels approved at first and second floor of the application site under planning permission 141498/FO/2024. The proposed rear access door would be situated within an existing opening and thus would not see the removal of any features of architectural interest. The sliding door access to Deansgate, similarly would see a glazed opening replaced with a glazed sliding door and thus, subject to exact design details, the relationship the front elevation of the property has with Deansgate would remain unchanged.

On this basis, the proposal is considered would have a neutral impact on the setting and significance of the Castlefield Conservation Area, in accordance with Core Strategy Policies SP1, CC9, C10, EN3 and DM1, Saved Unitary Development Plan Policy DC18, Places for Everyone Plan Policy JP-P2, the National Planning Policy Framework and the Planning (Listed Buildings and Conservation Areas) Act 1990

Residential Amenity

Deansgate and the eastern end of Liverpool Road, are both largely commercial roads, with high volumes of traffic situated along them. Conversely Southern Street, is a smaller side road, populated by multiple properties in residential use. The proposed development only seeks consent for the insertion of 2no doors and 2no louvres, with the creation of a commercial Class E unit benefitting from permitted development rights given the use of the site as offices (Class E(g(l))). Environmental Health do not object to the proposal subject to a condition that would require the chosen plant to not exceed specific noise criteria. Subject to such a condition, it is considered this aspect of the development is acceptable and accords with Core Strategy Policy DM1, Saved Unitary Development Plan Policy DC26 and the National Planning Policy Framework.

Highway Safety

Southern Street is a narrow and cobbled road that is bound by Liverpool Road and Bridgewater Street, and that runs parallel to Barton Street and Collier Street. Conversely Deansgate is a major arterial road providing access to the City Centre and Mancunian Way. Highways do not object to the proposal subject to a condition that would require the submission of a construction management plan. It is considered that the scale of the proposal, merely consisting of the installation of 2no louvres and 2no doors, does not warrant such a condition and that the attachment of such a condition would be unreasonable, thus failing to meet the six tests for planning conditions. As such, in the event of an approval such a condition will not be attached. Notwithstanding this an informative relating to scaffolding will be attached to the proposed development if approved. Subject to such an informative the development is acceptable in this regard and therefore accords with Core Strategy Policy DM1 and the National Planning Policy Framework.

Access

The proposed doorways would be level access and in the event of approval a planning condition would be attached to secure this in the interest of making Manchester City Centre accessible for all. Subject to such a condition the development is in accordance with Core Strategy Policies CC10 and DM1.

Conclusion

In light of the above and subject to appropriate planning condition, it has been found that the development is acceptable and is therefore in accordance with Core Strategy Policies SP1, EC2, EC3, CC1, CC2, CC9, CC10, EN1, EN3 and DM1, Saved Unitary Development Plan Policies DC18 and DC26, Places for Everyone Plan Policies, JP-Strat2 and JP-P2, National Planning Policy for Waste, the National Planning Policy Framework and the Planning (Listed Buildings and Conservation Areas) Act 1990. On this basis the application is recommended for approval.

Other Legislative Requirements

Equality Act 2010

Section 149 (Public Sector Equality Duty) of the Equality Act 2010 requires due regard to the need to: Eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Act and; Advance equality of opportunity between persons who share a protected characteristic and persons who do not share it. The Equality Duty does not impose a legal requirement to conduct an Equality Impact Assessment. Compliance with the Equality Duty involves consciously thinking about the aims of the Equality Duty as part of the process of decision-making.

Human Rights Act 1998 considerations

This application needs to be considered against the provisions of the Human Rights Act 1998. Under Article 6, the applicants (and those third parties, including local residents, who have made representations) have a right to a fair hearing and to this end the local planning authority must give full consideration to their comments.

Protocol 1 Article 1, and Article 8 where appropriate, confer(s) a right of respect for a person's home, other land and business assets. In taking account of all material considerations, including Council policy as set out in the Core Strategy and saved policies of the Unitary Development Plan, the Director of Planning, Building Control & Licensing has concluded that some rights conferred by these articles on the applicant(s)/objector(s)/resident(s) and other occupiers and owners of nearby land that might be affected may be interfered with but that that interference is in accordance with the law and justified by being in the public interest and on the basis of the planning merits of the development proposal. She believes that any restriction on these rights posed by the recommendation given is proportionate to the wider benefits of and that such a decision falls within the margin of discretion afforded to the Council under the Town and Country Planning Acts.

Recommendation: Approve

Article 35 Declaration

Officers have acted positively in determining this application by assessing the proposal against relevant planning policies and all material considerations. The nature of the scheme has not necessitated further discussions with the applicant. On this basis it is decided to grant planning permission in accordance with the presumption in favour of sustainable development.

Condition(s) to be attached to decision for approval

1) The development must be begun not later than the expiration of three years beginning with the date of this permission.

Reason - Required to be imposed pursuant to Section 91 of the Town and Country Planning Act 1990.

2) The development hereby approved shall be carried out in accordance with the following drawings and documents:

- o PL-A-2001 Rev V1: Site Location and Block Plan (Received 29/01/2025)
- o PL-A-2005 Rev V7: Proposed Elevations (Received 02/04/2025)

o Plant Noise Impact Statement (Prepared by NSL Noise Solutions; Dated 08/11/2024; Received 07/02/2025)

Reason - To ensure that the development is carried out in accordance with the approved plans. Pursuant to policies SP1 and DM1 of the Core Strategy.

3) Prior to the installation of the ventilation panels hereby approved, a material sample, with accurate coloured finish and details of pattern design, shall be submitted to and approved in writing by the City Council as Local Planning Authority. The development shall then proceed in accordance with the approved details.

Reason - To ensure that the appearance of the development is acceptable to the City Council as local planning authority in the interests of the visual amenity of the area within which the site is located, as specified in policies SP1 and DM1 of the Core Strategy.

4) Prior to the commencement of any works in relation to the front sliding door fronting out onto Deansgate hereby approved, final details regarding its material finish, including frame width and profile, and material samples where necessary, shall be submitted to and approved in writing by the City Council as Local Planning Authority. The development shall then proceed in accordance with the approved details.

Reason - To ensure that the appearance of the development is acceptable to the City Council as local planning authority in the interests of the visual amenity of the area within which the site is located, as specified in policies SP1 and DM1 of the Core Strategy.

5) Prior to the commencement of any works in relation to the rear security door fronting out onto Southern Street hereby approved, final details regarding its material finish, including material samples where necessary, shall be submitted to and approved in writing by the City Council as Local Planning Authority. The development shall then proceed in accordance with the approved details.

Reason - To ensure that the appearance of the development is acceptable to the City Council as local planning authority in the interests of the visual amenity of the area within which the site is located, as specified in policies SP1 and DM1 of the Core Strategy.

6) a) Externally mounted ancillary plant, equipment and servicing, including any plant located behind any ventilation panels or louvres shall be selected and/or acoustically treated in accordance with the Plan Noise Impact Assessment, prepared by NSL Noise Solutions (Dated 08/11/2024; Received 07/02/2025). The scheme shall be implemented in full before the use commences or as otherwise agreed in writing by the City Council as local planning authority.

b) Prior to the operation of the scheme a verification report shall be submitted to and approved in writing by the City Council as local planning authority to validate that the work undertaken throughout the development conforms to the recommendations and requirements in the approved acoustic report. The report shall also undertake post completion testing to confirm that the noise criteria have been met. Any instances of non-conformity with the recommendations in the report shall be detailed along with any measures required to ensure compliance with the agreed noise criteria.

Reason - To safeguard the amenities of the occupiers of nearby accommodation, pursuant to Core Strategy Policies DM1 and SP1 and saved UDP policy DC26.

7) No doors to ground floor spaces, other than those designated as fire exits, shall open outwards onto adjacent pedestrian routes.

Reason - In the interest of pedestrian safety pursuant to policy DM1 of the Manchester Core Strategy (2012).

Informatives

1) o The applicant is required to discuss and agree any requirements for licensing, hoarding / scaffolding, and skips with MCC's Highways Licensing Team via Email to:
highwaylicences@manchester.gov.uk

o The applicant is required to discuss and agree any requirements for temporary traffic and pedestrian management with MCC's Event and Traffic Management Team via Email to
highwaynetworkmanagement@manchester.gov.uk

o If basement/Structure excavations/works are proposed adjacent to the highway, structural drawings and calculations for the temporary and permanent support works must be submitted for checking (for a fee) to MCC Bridges/Structures Section via Email
highways.structures@manchester.gov.uk
