Pizza Pilgrim (La Vina)
105-107 Deansgate
Manchester
M3 2BQ

La Vina – Existing ventilation to Pizza Pilgrim specification

We have managed to now carry out function checks and interrogate the kitchen ventilation equipment.
The existing fans will deal with the airflows we require for the new catering equipment that will be used on site.
The filtration box is empty so we will remedy this with new filters prior to completion onsite.
No works will take place to the external ventilation risers
No additional ventilation ductwork will be installed external to the property

We trust the above meets with your approval. Should you have any questions, please don't hesitate to contact us.

Yours Sincerely

Jake Drake
Projects Director
