

Section Through North Elevation
Illustrating Sights Lines of Roof Access System
Scale NTS

Section Through South Elevation
Illustrating Sights Lines of Roof Access System
Scale NTS

Section Through East & West Elevations
Illustrating Sights Lines of Roof Access System
Scale NTS

Note:
Do not scale from this drawing.
Dimensions are to be checked on site.
If in doubt please ask.

General Notes

The existing general arrangement base drawings (plans, sections and elevations) are based upon 2010 data and in some instances, may not reflect the current arrangement. Dimensions and arrangements must be checked for accuracy onsite by the contractor, prior to any works commencing, ordering or manufacture / fabrication of any elements or components.

Any discrepancies / irregularities must be reported to the CA immediately.

No work shall commence until any such discrepancies have been resolved.

Limitations

The drawings are based upon existing data and no concealed and / or hidden spaces have been exposed and / or opened up for inspection, unless specifically highlighted. Therefore, the arrangement and interfacing illustrated across details are purely indicative / approximate only. The accuracy of the survey data graphically presented cannot be confirmed. These drawings are for tender purposes only.

General Note

Sight lines indicated are provided on the basis of there being unobstructed views.

The sight lines do not account for any changes in topography or limiting factors such as buildings, structures, furniture etc.

It should be noted that sight lines will be distorted, restricted, dependent on the angle and height that the roof access equipment is viewed from.
