Comment Reasons:

Comment:As healthcare professionals, my partner and I have demanding schedules. Personally, I start work as early as 7 AM, which means I have to wake up significantly earlier to prepare for my day. This requires me to maintain a consistent and reasonable bedtime to ensure I can perform my duties effectively and safely.

However, the current situation near our residence has made this increasingly difficult. There are already late-night bars and nightclubs just a few houses down from our apartment, and they have caused us considerable stress. The disturbances include late-night loitering, loud and often anti-social behavior, and a general lack of respect for the neighborhood's peace.

In addition to the noise, these businesses have introduced other nuisances, such as littering and broken glass, which are not only unsightly but also pose a safety hazard to residents. The area frequently looks unkempt due to the debris left behind by patrons of these establishments.

Expanding or introducing more late-night businesses in this area would only exacerbate these issues. It would increase the strain on residents, compromise our ability to rest, and deteriorate the overall quality of life in the neighborhood. We urge the relevant authorities to take these concerns seriously and prioritize the well-being of the community over the convenience of additional nightlife venues.
