- ✓ **100% Natural and Breathable**
- ✓ **CE Certified**

PRODUCT DETAILS

High Standards

This specialist material is CE certified and is manufactured to British Standards under heritage guidelines for historic stone masonry repair.

Ethical

Stone repair mortar is a blend of natural minerals and aggregates in a natural hydraulic lime binder. It contains **absolutely no cement** therefore your repairs will be totally breathable and vapour permeable.

Everything Inside

All the materials you need are packed inside:

- Natural Hydraulic Lime (NHL)
- Blended Sands & Aggregates

Easy to Mix

Mixing the mortar is really simple. All you need to do is stir the lime and aggregate together, then add clean water and mix to the correct consistency. This can all be done inside the recyclable tub in which the product is supplied.

Expertise

For specialist advice about this material and natural stone repairs, please make an [enquiry](#).

Technical

Weight	11kg (approx.)
Coverage	Fills 0.5m ² (approx.) at a thickness of 10mm.
