Compliance with conditions

- Your planning approval or consent is attached. It will contain conditions that you must comply with.
- Please read the conditions and understand their requirements and restrictions, for example submission and approval of details or measures to protect trees.
- Some conditions will require action before you start development and it is imperative that you seek to have these discharged before any work commences.
- Whilst every effort has been made to group conditions logically, it is your responsibility to ensure that you are aware of the requirements and/or restrictions of all conditions.
- If you fail to comply with the conditions this may result in a breach of planning control and this may lead to enforcement action.
- Failure to comply with conditions may also result in the development not being lawful.
- It is in your interests to demonstrate that conditions have been complied with. Failure to do so may cause difficulties if the property is sold or transferred.
- A fee is payable for each request to discharge conditions.
- For advice on any of these matters, please contact Planning, Manchester City Council, PO Box 532, Town Hall, Manchester M60 2LA or email planning@manchester.gov.uk

5) No development shall commence until a flood risk assessment has been submitted to and approved in writing by the local planning authority. This may take the abbreviated form of a desktop-study flood risk statement (FRS). For the avoidance of doubt, as per the government standing advice, the assessment must include the following:

- A description of your development.

- An assessment of the flood risk from all sources (such as: fluvial, surface water, groundwater, sewer, reservoir and canal) of flooding for your development (this does not require bespoke hydraulic modelling, and may be based on data obtained freely via an Environment Agency data request and opensource data on the DEFRA and government platforms). Note this should include publicly available maps where applicable.

- Identification of any historic flood events on site or within close proximity to the site.

- Provide a plan showing the finished floor levels (FFLs). FFLs should take into consideration predicted flood levels and should be set to an appropriate level, this may be either no lower than existing internal FFLs of the adjoining dwelling or 300 millimetres (mm) above the estimated flood level. All levels should be in mAOD.

- If you cannot raise FFLs 300 mm above the estimated flood level, you should demonstrate flood resilience and resistance measures in your design. Use the following guidance: <https://www.gov.uk/guidance/flood-risk-assessment-standing-advice#extra-flood-resistance-and-resilience-measures>

- Consideration of flood safety measures (such as signing up for EA flood warnings) required.

- Any supporting plans and drawings.

-See <https://www.gov.uk/guidance/flood-risk-assessment-standing-advice> for further guidance on preparing your documents and obtaining the required data.

Reason: To ensure that the development is not at an increased risk of flooding (from various sources) and that the appropriate flood resilience and resistance measures have been implemented on site where required, pursuant to Policy DM1 in the Core Strategy

Development Plan Document and the policies and guidance within the NPPF and NPPG.

6) The development hereby permitted shall not be occupied at any time other than for purposes ancillary to the residential use of the dwelling known as 146a Burnage Lane, M19 1EF.

Reason: To ensure the proposed use remains ancillary to the principle use on the site. In the interest of residential amenity, in accordance with the policies DM1 and SP1 of the Manchester Core Strategy.

Street Naming & Numbering Requirements

Manchester City Council is responsible for allocating street naming and numbering within Manchester for new developments or property conversions. Individuals or businesses are not permitted to allocate their own property numbers, building or street names.

If your development includes the creation of new dwellings (either new build or conversion of existing buildings), creation of new commercial properties or the subdivision of existing properties you must ensure that you request new or changes to addresses through us so they can be officially allocated and registered in accordance with the Public Health Act 1925 Sections 17-19 & Greater Manchester Act 1981 Section 22.

Failure to do this may result in difficulties for the developer/occupier when requiring services such as connections to utilities, phone lines and postal services and may delay your development.
