Biodiversity net gain

Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 sets out that every planning permission granted for the development of land in England shall be deemed to have been granted subject to the 'biodiversity gain condition' requiring development to achieve a net gain of 10% of biodiversity value.

This is subject to exemptions, an exemption applies in relation to planning permission for a development which is the subject of a householder application, within the meaning of article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order (2015)*.

Applicants for planning permission are required to make a statement as to whether they believe the biodiversity gain condition will apply if permission is granted, please confirm:

- ☒ It is my belief that if permission is granted for the development to which this application relates the biodiversity gain condition would not apply

*A 'householder application' means an application for planning permission for development for an existing dwellinghouse, or development within the curtilage of such a dwellinghouse for any purpose incidental to the enjoyment of the dwellinghouse which is not an application for change of use or an application to change the number of dwellings in a building.

Details of the pre-application advice received

As discussed, this application was not permitted under a large homes application, instead it was consider and approved under household planning application ref: 137333/FH/2023.

Whilst it is likely that a flat roof would have less of an impact, it would, however, be materially different to the approved drawings. Therefore, your client should consider submitting a new planning application for the changes to the roof. Also, you also mentioned that your clients are considering converting the garage into additional living space, this could be included as part of a planning application.

I have checked the original planning permission (application reference: 032895) for the housing estate and PD rights have not removed to convert the internal garage to additional living space, therefore if your client were to make the changes as a separate development (i.e., not built at the same time as rear extension) then provided that the windows/doors and external materials are similar in appearance to those used in the construction of the exterior of the existing dwellinghouse then it may be considered permitted development under Class A of GPDO.

The advice in this e-mail is given in good faith on the basis of the information available at the present time. The advice may be subject to revision following further examination or consultation, or where additional information comes to light, and is therefore not binding on any future recommendation that may be made by the Council, or any formal decision by the Council.

I hope this is of assistance to you, and if you wish to discuss any of the matters raised please contact me to discuss.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- ☐ Yes
- ☒ No
