Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including any change of use

This application seeks a change of use for the property at 1 Stanley Road, from a C3 residential dwelling (single household) to a C4 House in Multiple Occupation (HMO) for up to four residents. The proposed change will allow for shared accommodation while maintaining the character and residential use of the property.

We are currently on a temporary work contract abroad for two years and are exploring options to rent out our property to multiple occupants. Renting the property as an HMO provides a practical and beneficial solution for both housing demand in the area and the upkeep of the property. We have engaged Reeds Rains Estate Agents to ensure compliance and proper maintenance of the property.

The property itself features a spacious living room and kitchen, two bathrooms, four bedrooms, a substantial garden, and on-premises parking for two cars (with plenty of additional street parking available). It can comfortably accommodate four residents. Additionally, we have installed individual locks on each bedroom door to ensure privacy.

Proposed Works & Changes

The proposed change of use does not require major structural modifications. However, minor internal alterations will be undertaken to ensure compliance with HMO safety and licensing regulations, including:

Installation of fire doors where required to meet fire safety standards.

Fire alarm and emergency lighting installation to comply with HMO regulations.

Ensuring adequate waste disposal facilities in line with council guidelines.

Internal reconfiguration (if needed) to optimize communal and private living spaces while maintaining compliance with minimum room size requirements.

No external alterations to the property are planned, ensuring the existing residential character and appearance of the area remain unchanged.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

[Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required.](#)

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- ☐ Yes
☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

[You can use our partner's free online tool to determine if you are exempt and to produce detailed reasons](#)

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:

Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:

Under 25 square metres

Please justify the reason why biodiversity net gain does not apply:

Only asking for change of use, the only changes to the property will be internal to the house.

Note: Please read the help text for further information why developments may be exempt or not in scope.
