Growth & Development

Delegated officer report for planning application

Application no. 141977/AO/2025
Date registered valid: 23 January 2025
Proposal: Installation of 1no projecting sign.
Address: 6A Piccadilly Plaza, Manchester, M1 4AH
Ward(s): Deansgate Ward

Applicant: Mr. Jae Cho Maguro Limited
Agent (if any): Mr. Jai Lee, JAIA Architects
Case officer: Jack Naven
Tel: 0161 219 2095
Email: jack.naven@manchester.gov.uk

Recommendation: Approve
Date of recommendation: 20 February 2025

Application Details

Type of application: Advertisement Consent

Development type: Advertisements

Date of site visit: 31 January 2025

Standard consultations:

Printed: 29 January 2025 Expired: 19 February 2025

Neighbour notifications

Printed: 29 January 2025 Expired: 19 February 2025

Site notice

No site notice has been produced

Press advert

No press advert had been published

Departure from Development Plan: No

Environmental Statement: Not required

Description of Site/Area

Listed building: Not applicable

Conservation area: Not applicable

Tree Preservation Order: Not applicable

The site refers to a commercial unit located on the corner of Mosely Street and Parker Street.

It is a part of the Piccadilly Plaza complex, completed in 1965, which includes City Tower. Piccadilly Gardens and the bus terminal at Piccadilly Gardens, are located directly next to the unit.

The surrounding uses of predominantly commercial is nature at the ground level, with a lot of office use around, most notably in City Tower itself.

The site is not in a conservation area.

There are listed buildings across the street that the proposal must be considered within the setting of, including the Grade II listed;

- 10 Mosley Street
- Cobden House, 12-16 Mosley Street

Description of Development

The proposal seeks advertisement consent for the installation of 1no. projecting sign.

The sign is not illuminated.

The proposed signage would be 600mm by 600mm in height and length, have a depth/thickness of 30mm, and would project out 800mm out into the public highway.

The sign is proposed to consist of an aluminium panel to be powder coated in RAL 7021 Black Grey, with a polish brass logo attached to the panel, and a surrounding aluminium frame powder coated in RAL 7021 Black Grey.

Related Applications

140794/AO/2024 - Installation of 1no projecting sign.

Refused November 2024.

Consultations & Notification Responses

Highway Services - The proposed projecting sign extends to a maximum projection of 0.6m over the adopted highway. As such, a Projection over License will be required.

Publicity - Neighbour notification letters were sent to surrounding properties. At the time of writing this report, no representations have been received because of this publicity.

Policy

Town and Country Planning (Control of Advertisements) Regulations 2007

(1) A Local planning authority shall exercise its powers under these Regulations in the interests of amenity and public safety, taking into account—

- (a) the provisions of the development plan, so far as they are material; and
- (b) any other relevant factors.

(2) Without prejudice to the generality of paragraph (1) (b)—

- (a) factors relevant to amenity include the general characteristics of the locality, including the presence of any feature of historic, architectural, cultural or similar interest;
- (b) factors relevant to public safety include—
 - (i) the safety of persons using any highway, railway, waterway, dock, harbour or aerodrome (civil or military);
 - (ii) whether the display of the advertisement in question is likely to obscure, or hinder the ready interpretation of, any traffic sign, railway signal or aid to navigation by water or air;
 - (iii) whether the display of the advertisement in question is likely to hinder the operation of any device used for the purpose of security or surveillance or for measuring the speed of any vehicle.

(3) In taking account of factors relevant to amenity, the local planning authority may, if it thinks fit, disregard any advertisement that is being displayed.

(4) Unless it appears to the local planning authority to be required in the interests of amenity or public safety, an express consent for the display of advertisements shall not contain any limitation or restriction relating to the subject matter, content, or design of what is to be displayed.

The Adopted Core Strategy for the City of Manchester (2012)

Adopted on 11th July 2012 and the Key Development Plan Document in the Local Development Framework. It states that all new developments should follow the 'Development Principles' and accord with the design guidance set out in the Supplementary Planning Documents.

DM1 (Development Management) states that new development should have regard to more specific issues for which more detailed guidance may be given within supplementary planning documents. Issues include: the appropriate siting and appearance of development, the impact upon the surrounding area, the effects on amenity, accessibility, community safety and crime prevention, health, the adequacy of internal accommodation and amenity space and refuse storage/collection.

SP1 (Spatial Principle) states the key spatial principles which will guide the strategic development of Manchester together with core development principles. It is stated that developments in all parts of the city should create well designed places which enhance or create character, make a positive contribution to the health, safety, and well-being of residents, consider the needs of all members of the community, and protect and enhance the built environment. Further, development should seek to improve access to jobs, services and open space and provide good access to sustainable transport provision.

CC9 (Design and Heritage) states that design of new buildings will need to be of the highest standard in terms of appearance and function. The standards and guidance explained in other LDF policies should be the basis for the approach to design, with particular attention to be given to the City Centre context and character.

Development in Manchester City Centre should preserve or enhance the heritage assets that have been identified, including listed buildings, conservation areas and scheduled ancient monuments.

The Council will support high density and mixed-use development in the City Centre, but developers must recognise the specific design challenges that must be overcome to ensure complementarity of function and form. New development must support the range of uses the Council expects in the City Centre and contribute to a coherent and integrated physical environment.

EN1 (Design Principles and Strategic Character Areas) states that developers will be expected to consider the City's heritage, including its listed buildings, conservation areas, archaeological remains and historic street pattern.

EN3 (Heritage) advises that throughout the City, the Council will encourage development that complements and takes advantage of the distinct historic and heritage features of its districts and neighbourhoods, including those of the City Centre and that proposals which enable the re-use of heritage assets will be encouraged where they are considered consistent with the significance of the heritage asset.

Paragraph 8.53 of the supporting text states that the City Centre has 14 conservation areas and numerous listed buildings. These are essential ingredients to the City's sense of place, providing aesthetic quality and strong references to the City's past, which will always be a central part of Manchester's character. Development which fails to respond to the opportunities that this context affords should not be supported.

The Unitary Development Plan (UDP) for the City of Manchester (1995)

DC14.1 (Shops and Related Signs) states that in determining applications relating to these premises for shop fronts, security grilles, advertisement signs, canopies and awnings, the Council will seek to ensure that proposals are in keeping with the character of the building and adjoining buildings, of adjoining shopfronts, where appropriate, and of the area within which the premises are located.

DC14.5 (Shops and Related Signs) states that the Advertisement Regulations require that applications for shop signs be considered only in the interests of amenity and public safety. In determining such applications, the Council will adopt the following policies. The policies relevant to this application are:

- a) signs should not normally be positioned other than at fascia level.
- b) signs should respect the architectural form of buildings and shop frontages.
- c) where no obvious fascia level exists, signs above shopfronts should be in keeping with the scale of the frontage of the building and in particular should not fill the gap between ground floor shop windows and first floor windows.
- d) projecting signs, or any other type of sign which projects significantly beyond the shopfront, should line up with the associated fascia board. Where this is not the case, such proposals will not be permitted.
- e) The Council will normally permit only one projecting box sign for each shop unit. On listed buildings and on buildings within Conservation Areas, signs consisting of individually mounted letters will be preferred to box fascia signs.
- f) fixed canopies mounted above fascia level or which obscure the fascia or shopfront will not normally be permitted, unless within a structural opening;
- g) long canopies which ignore the architectural form of frontages will not normally be permitted.

DC19.1 (Listed Buildings) advises that in determining applications for listed building consent the Council will have regard to the desirability of securing the retention, restoration, maintenance and continued use of such buildings and to protecting their general setting. The City Council will:

- Not permit any external or internal alteration or addition to a listed building where in its opinion, there would be an adverse effect on its architectural or historic character.

Places for Everyone

The Places for Everyone Plan is a Joint Development Plan Document, providing a strategic plan and policies, for nine of the 10 boroughs which make up Greater Manchester.

The following policies are considered relevant to this application:

JP-Strat2 (City Centre) states that the role of the City Centre as the most significant economic location in the country outside London will be strengthened considerably. The City Centre will continue to provide the primary focus for business, retail, leisure, culture and tourism activity in Greater Manchester, but the increasingly important residential role of the City Centre will be expanded. It will be a priority for investment in development and infrastructure. This will include addressing current network capacity issues in the City Centre which will enable the future expansion of the rapid transit public transport network across Greater Manchester. Improvements in the public realm, walking and cycling facilities, and green infrastructure will help to enhance the local character and environmental quality of the City Centre so that it can rival city centres across the globe, enabling it to compete effectively at the international level for investment, businesses, skilled workers, residents and tourists. A broad range of commercial accommodation will be delivered, helping the City Centre to capture growth across key economic sectors. The new functions within the City Centre will be delivered in a way that complement, rather than displace the area's non-residential functions and will seek to protect and enhance the city centre's historic environment and assets.

Policy JP-P2 (Heritage) aims to proactively manage and work with partners to positively conserve, sustain and enhance its historic environment and heritage assets and their settings. Opportunities will be pursued to aid the promotion, enjoyment, understanding and interpretation

of heritage assets, as a means of maximising wider public benefits and reinforcing Greater Manchester's distinct identity and sense of place. The policy requires development proposals affecting a designated heritage asset (or an archaeological site of national importance) and a conservation area to conserve those elements which contribute to its significance including those identified in any conservation area appraisal as making a positive contribution to the area. Harm to such elements will only be permitted where this is clearly justified and outweighed by the public benefits of the proposal.

Shopfront and Signage Design Guide (2024)

The shopfronts and signage SPD sets out the detailed guidance for shopfront alterations and the display of signage in Manchester.

The SPD states that new signage should:

- be limited to one fascia signage or internal hanging signage per elevation;
- be located below the first-floor eills, unless there is historic evidence of signage above;
- have a maximum depth of 30mm;
- not be in the form of internally illuminated lightbox signage;
- not conceal, obscure or damage any elements or detailing of a shopfront that positively contribute to its appearance, historic interest and appreciation.

National Planning Policy Framework (NPPF) (2024)

It is a fundamental requirement of the NPPF that planning proposals contribute to the achievement of "sustainable development".

Section 12 (Achieving Well Designed Places) advises that the government attaches great importance to the design of the built environment. Good design is a key aspect of sustainable development, is indivisible from good planning, and should contribute positively to making places better for people.

Paragraph 141 states:

"The quality and character of places can suffer when advertisements are poorly sited and designed. A separate consent process within the planning system controls the display of advertisements, which should be operated in a way which is simple, efficient, and effective. Advertisements should be subject to control only in the interests of amenity and public safety, taking account of cumulative impacts."

Section 16 (Conserving and Enhancing the Historic Environment) addresses how proposals that affect heritage assets should be considered.

Paragraph 189 states that heritage assets are an irreplaceable resource and should be conserved in a manner appropriate to their significance, so that they can be enjoyed for their contribution to the quality of life of existing and future generation.

Paragraph 207 advises that Local Planning Authorities (LPAs) should require an applicant to describe the significance of any heritage assets affected. The level of detail should be sufficient to understand the potential impact of the proposal on their significance.

Paragraph 208 advises that Local Planning Authorities (LPAs) should identify and assess the particular significance of any heritage asset that may be affected by a proposal (including by development affecting the setting of a heritage asset) taking account of the available evidence and any necessary expertise. They should take this into account when considering the impact of

a proposal on a heritage asset, to avoid or minimise any conflict between the heritage asset's conservation and any aspect of the proposal.

Paragraph 210 advises that in determining applications, local planning authorities should take account of:

- a) the desirability of sustaining and enhancing the significance of heritage assets and putting them to viable uses consistent with their conservation;
- b) the positive contribution that conservation of heritage assets can make to sustainable communities including their economic vitality; and
- c) the desirability of new development making a positive contribution to local character and distinctiveness.

Paragraph 212 states that when considering the impact of a proposal on the significance of a designated heritage asset, great weight should be given to its conservation (and the more important the asset, the greater the weight should be), irrespective of whether any potential harm amounts to substantial harm, total loss or less than substantial harm.

Paragraph 213 states that any harm to, or loss of, the significance asset (from alteration or destruction, or from development within its setting), should require clear and convincing justification. Substantial harm to or loss of: a) grade II listed buildings, or grade II registered parks or gardens, should be exceptional; b) assets of the highest significance, notably scheduled monuments, protected wreck sites, registered battlefields, grade I and II* listed buildings, grade I and II* registered parks and gardens, and World Heritage Sites, should be wholly exceptional.

Paragraph 214 states that where a proposal will lead to less than substantial harm, the harm should be weighed against the public benefits of the proposal including, where appropriate, securing its optimum viable use.

Paragraph 219 states that local planning authorities should look for opportunities for development in Conservation Areas and World Heritage Sites, and within the setting of heritage assets, to enhance or better reveal their significance. Proposals that preserve those elements of the setting that make a positive contribution to the asset (or which better reveal its significance) should be treated favourably.

Other Legislation

Sections 16, 66, and 72 of the **Listed Buildings and Conservation Areas Act 1990** require that special consideration is given to the preservation of the significant fabric and setting of listed buildings and conservation areas.

Issues

The main issues for consideration relate to the principle of the proposal, as well as, in accordance with the advertisement regulations, the acceptability of the proposal in terms of its impact upon visual amenity and upon public safety. In judging this, the provisions of the development plan and any other relevant factors, so far as they are material, must be taken into account.

The Principle of the Proposal

The principle of the proposal is considered to be acceptable in this case. Projecting signs are considered to be appropriate to advertise and provide wayfinding to such a premises.

Visual Amenity

The design of the projecting sign is slender, of high quality, and in keeping with other high-quality signage in the area.

The depth of 30mm is in line with the slender depth of various projecting signs approved by the Local Planning Authority in recent years and is in line with the maximum depth set out in the adopted *Shopfront and Signage Design Guide (2024)*.

Proposed signage design

UDP policy DC14.5 states that "projecting box signs, or any other type of sign which projects significantly beyond the shopfront, should line up with the associated fascia board. Where this is not the case, such proposals will not be permitted". Whilst there is no external fascia board on this unit, there is planned to be signage located behind the glazing, which would be at "fascia level" and the projecting sign would line up with.

Due to the slimmer profile of the projecting signs and the siting of the signs in line with the fascia signage, it is considered that the projecting signs do not have a harmful impact on the character and visual amenity of the building or the surrounding street scene.

Taking all these aspect into consideration, the proposal can therefore be supported on visual amenity grounds.

Public Safety

There is no luminance to the proposed sign and therefore there is no concern cause any distraction to passing pedestrians or road users, or to cause a disturbance to any nearby residents or commercial occupiers.

All signage complies with headroom and carriageway clearance requirements.

A projection over licence is required due to the projection of circa 0.8m over the adopted highway.

Overall, there are no public safety concerns with the proposed signage.

Conclusion

Given the above, the proposal is considered to be consistent with the Core Strategy for the City of Manchester, in particular DM1 (Development Management) and SP1 (Spatial Principles), the saved policies contained within the Unitary Development Plan for Manchester, in particular DC14.1 and DC14.5 (Shop fronts and Related Signs), and the National Planning Policy Framework, in particular Section 12 (Achieving Well Designed Places) and Section 16 (Conserving and Enhancing the Historic Environment).

Other Legislative Requirements

Equality Act 2010

Section 149 (Public Sector Equality Duty) of the Equality Act 2010 requires due regard to the need to: Eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Act and; Advance equality of opportunity between persons who share a protected characteristic and persons who do not share it. The Equality Duty does not impose a legal requirement to conduct an Equality Impact Assessment. Compliance with the Equality Duty involves consciously thinking about the aims of the Equality Duty as part of the process of decision-making.

Human Rights Act 1998 considerations

This application needs to be considered against the provisions of the Human Rights Act 1998. Under Article 6, the applicants (and those third parties, including local residents, who have made representations) have a right to a fair hearing and to this end the local planning authority must give full consideration to their comments.

Protocol 1 Article 1, and Article 8 where appropriate, confer(s) a right of respect for a person's home, other land and business assets. In taking account of all material considerations, including Council policy as set out in the Core Strategy and saved policies of the Unitary Development Plan, the Director of Planning, Building Control & Licensing has concluded that some rights conferred by these articles on the applicant(s)/objector(s)/resident(s) and other occupiers and owners of nearby land that might be affected may be interfered with but that that interference is in accordance with the law and justified by being in the public interest and on the basis of the planning merits of the development proposal. She believes that any restriction on these rights posed by the recommendation given is proportionate to the wider benefits of and that such a decision falls within the margin of discretion afforded to the Council under the Town and Country Planning Acts.

Recommendation: Approve

Condition(s) to be attached to decision for approval

1) No advertisement is to be displayed without the permission of the owner of the site or any other person with an interest in the site entitled to grant permission.

No advertisement shall be sited or displayed so as to:

- (a) endanger persons using any highway, railway, waterway, dock, harbour or aerodrome (civil or military);
- (b) obscure, or hinder the ready interpretation of, any traffic sign, railway signal or aid to navigation by water or air; or
- (c) hinder the operation of any device used for the purpose of security or surveillance or for measuring the speed of any vehicle.

Any advertisement displayed, and any site used for the display of advertisements, shall be maintained in a condition that does not impair the visual amenity of the site.

Any structure or hoarding erected or used principally for the purpose of displaying advertisements shall be maintained in a condition that does not endanger the public.

Where an advertisement is required under these Regulations to be removed, the site shall be left in a condition that does not endanger the public or impair visual amenity.

2) The development hereby approved shall be carried out in accordance with the following drawings and documents received by the City Council as Local Planning Authority on 23 January 2025:

- Location Plan
- Location and site plan
- Proposed Elevation 1 PL202 B
- Proposed Elevation 2 and 3 PL203 C
- Proposed Signage PL400 B

Reason - To ensure that the development is carried out in accordance with the approved plans. Pursuant to policies SP1 and DM1 of the Core Strategy.

Informative

The proposed projecting signs extends to a maximum projection in excess of 0.8m over the adopted highway and will therefore require a projection over licence, to be funded at the applicant's expense. This can be obtained from https://www.manchester.gov.uk/directory_record/451898/projecting_over_the_highway#:~:text=Summary,also%20need%20to%20be%20licensed.
