Part 1 – Particulars of the application/development

Proposal: Erection of a single storey canopy together with installation of roller shutters

Location: 876 - 878 Stockport Road, Manchester, M19 3BP

Date of application: 22 October 2024

Application number: 140928/FO/2024

Part 2 – Particulars of decision

Manchester City Council gives notice that the development referred to in Part 1 has been **Refused** in accordance with the application and plans submitted for the reason(s) listed below.

Article 35 Declaration

The application has been determined within the statutory timescale. In this instance the principle of the application proposals is contrary to the adopted development plan and would not improve the social or environmental conditions of the area. It is not considered, in this instance, that amendments could be made that would make the development acceptable. The applicant's agent was informed of these concerns prior to the determination of the application.

Reason(s) for decision

1) The development, by virtue of its siting and appearance would have an unduly prominent impact on the adjacent pavement and wider streetscene. It would thereby be poorly related to the characteristic arrangement of the adjoining building. The development would thereby be harmful to the visual and residential amenities of the area and be contrary to policies DM1, EN1 and SP1 of the Core Strategy for the City of Manchester and policy JP-P1 of Sustainable Development Joint Development Plan Document - Places for Everyone.

2) The development would formalise the display of goods on Worsley Grove, and lead to potential congestion between pedestrians when attempting to manoeuvre within

limited space along the pavement and customers accessing displayed goods. Such circumstances may be particularly harmful to wheelchair and pushchair users who may be displaced into the carriageway due to obstructions within the pavement. The development would be potentially harmful to pedestrian safety and be contrary to policies DM1, EN1 and SP1 of the Core Strategy for the City of Manchester and policy JP-P1 of Sustainable Development Joint Development Plan Document - Places for Everyone.

3) The design and appearance of the development would be poorly related to the characteristic architectural detailing of the adjoining building, including the formation of a southern elevation comprising unperforated galvanised roller shutters. The development would thereby be contrary to policies DM1, EN1 and SP1 of the Core Strategy for the City of Manchester and policy JP-P1 of Sustainable Development Joint Development Plan Document - Places for Everyone.
