Date: 13 December 2024

Dear Sir/Madam,

Application under Section 96a of the Town & Country Planning Act 1990 (as amended) for a Non-Material change to a planning permission

Application No: 141685/NMC/2024

Description: Non-material amendment to planning permission reference 139720/JO/2024 to allow for amendments to 'Block 4' including decreasing the height of window heads at first floor; width of openings on either side of the block at second floor have been reduced from double to single doors

Location: Site Of Former Victoria Park Probation Centre , Laindon Road, Manchester, M15 5YJ

I refer to your application for a non-material amendment to planning permission reference 139720/JO/2024.

The revisions to the approved scheme relate to revisions to detailing on the rear elevation of Block 4. The height of the window headers at the first floor have decreased, and the width of the openings at second floor level to the proposed units at each end of Block 4 has been revised from double doors to a single door with reduced window head height to these openings.

It is considered that the proposed revisions would not have a detrimental impact in terms of the visual appearance of the proposed residential development, or the visual and residential amenity of the residential properties in proximity to the site.

Following an assessment of the details submitted, I can confirm that the proposed amendments are considered to be of a non-material nature and acceptable to the City Council as the Local Planning Authority. The City Council is satisfied that the proposed changes will not result in any significant material alterations to the planning approval.

Therefore I can confirm that the proposed amendments are hereby **approved**.

It should be noted that this letter of consent does not supersede the decision notice attached to planning permission 139720/JO/2024. These documents should be read in conjunction with one another. Therefore, the conditions previously applied to approval

139720/JO/2024 still apply to this development. However, due to the acceptance of the amendments outlined above, the following amended conditions also now apply:

3) The development hereby approved shall be carried out in accordance with the following drawings and documents:
