Hi Ralph,

As discussed, confirmation below from the head lighting designer who originally provided the calcs for plannings approval.

Please can you confirm if this is sufficient to discharge condition 4b?

Thanks

Scott Newton

Hi Scott,

It all looks good to me. The plot was based on the lighting layout provided and has been installed as per the design and our calculations.

Hi Stephen,

Thanks for getting back.

Planning & environmental the environment team are happy that the lighting levels shown on the plan and calcs provided previously are adequate, we require a statement from yourselves that the lighting has been installed in accordance with what was provided previously.

Please can you confirm that you are happy that we have installed as per the plot and subsequent calculations with regards to the overspill and glare?

Thanks

Hi Alan,

As discussed, please see the attached provided by Stephen.

Please could you provide us with a statement just stating that you are happy with the installation and that it collaborates the data and findings with regards to the overspill/glare calculations in the attached?

If you would like to come site to survey I can meet you there.

Thanks
