Subject: RE: Christmas Markets application on King Street

Hi Jack,

I have just spoken to the electrical engineers involved in the design of the project who have confirmed that all the generators at all of the market sites will be the low noise pink models.

See link attached for the specified generators.

Subject: Christmas Markets application on King Street

Morning Robert,

I have received some feedback from our Environmental Health team on this one.

The only comment they have to make is as follows:

Can the generators used for the Markets on King Street be the Pink, low noise model to prevent noise disturbance to the occupants of the offices on King Street?

Environmental Health have noted that they received complaints in 2021 and 2022 regarding noise from generators impacting the offices and last year this was resolved by replacing the generators to the pink low noise model, so would request that these be used again at this location.

Kind Regards

Jack Naven
