

GENERAL NOTES
Contractor to visit site prior to commencement of work and check all dimensions and familiarise himself with the site conditions. This drawing must then be checked and verified by the contractor prior to work commencing on site.
This drawing is for the purpose of achieving local authority approval only and should not be used as a working drawing. Client must have received written approval from both the local authority, planning and building control departments before instruction or commencement of any building works on the relevant site. Client to obtain written permission from relevant bodies for any encroachment whatsoever. All workmanship, materials and construction to comply with Building Regulations, British Standards, Codes of Practice and N.H.B.C requirements whether or not specifically stated on these drawings. All materials to be fixed, applied or mixed in accordance with manufacturers instructions or specifications. All materials shall be suitable for their purpose. The contractor shall take into account everything necessary for the proper execution of the works, to the satisfaction of the "Inspector" whether or not indicated on the drawings. Sample of external materials to be submitted to L.A for approval. All external timber to be preservative treated. All air bricks to be ducted through walls. Where additional load is to be applied over existing openings, lintels to be exposed and checked for structural stability to the satisfaction of local building control officer.
