Hi Jack

Please see recommended condition and comment below:

LIGHT

Illuminated signage

Lighting from illuminated signage shall be designed and installed so as to control glare and overspill onto nearby properties.

Reason - To safeguard the amenities of the occupiers of nearby properties.

*The signage will need to be selected and installed so to not exceed 300cd/m2

**the information submitted suggests the proposed illumination will slightly exceed the above criteria (350cd/m2) so this will need amending accordingly

Kind regards

Graeme
