Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. View government planning guidance on fire statements or access the fire statement template and guidance.
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or view government planning guidance on determination periods.

Description

Trees and Hedges

Are there trees or hedges on the proposed development site?

- [ ] Yes
- [x] No

And/or: Are there trees or hedges on land adjacent to the proposed development site that could influence the development or might be important as part of the local landscape character?

- [ ] Yes
- [x] No

If Yes to either or both of the above, you may need to provide a full tree survey, at the discretion of the local planning authority. If a tree survey is required, this and the accompanying plan should be submitted alongside the application. The local planning authority should make clear on its website what the survey should contain, in accordance with the current 'BS5837: Trees in relation to design, demolition and construction - Recommendations'.

Assessment of Flood Risk

Is the site within an area at risk of flooding? (Check the location on the Government's Flood map for planning. You should also refer to national standing advice and your local planning authority requirements for information as necessary.)

- [ ] Yes
- [x] No

Is your proposal within 20 metres of a watercourse (e.g. river, stream or beck)?

- [x] Yes
- [ ] No

Will the proposal increase the flood risk elsewhere?

- [ ] Yes
- [x] No

How will surface water be disposed of?

- [ ] Sustainable drainage system
- [ ] Existing water course
- [ ] Soakaway
- [x] Main sewer
- [ ] Pond/lake

Biodiversity and Geological Conservation

Is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

To assist in answering this question correctly, please refer to the help text which provides guidance on determining if any important biodiversity or geological conservation features may be present or nearby; and whether they are likely to be affected by the proposals.

a) Protected and priority species

- [ ] Yes, on the development site
- [ ] Yes, on land adjacent to or near the proposed development
- [x] No

b) Designated sites, important habitats or other biodiversity features

- [ ] Yes, on the development site
- [ ] Yes, on land adjacent to or near the proposed development
- [x] No

c) Features of geological conservation importance

- [ ] Yes, on the development site
- [ ] Yes, on land adjacent to or near the proposed development
- [x] No

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)) would apply?

◯ Yes
⊘ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in The Environment Act 2021: "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

You can use our partner's free online tool to determine if you are exempt and to produce detailed reasons

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:
Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:
Under 25 square metres

Please justify the reason why biodiversity net gain does not apply:
In response to the biodiversity net gain (BNG) requirement for planning, we would like to confirm that this development is exempt from the BNG requirement based on the following: The proposed development involves an extension to the existing kitchen, which measures 4m by 4m. This falls below the threshold for BNG, as it impacts less than 5m x 5m on-site habitat. Additionally, the development does not impact any priority habitats. Therefore, in accordance with the guidelines for developments below the threshold, a biodiversity net gain assessment is not required in this instance.

Note: Please read the help text for further information why developments may be exempt or not in scope.

Foul Sewage

Please state how foul sewage is to be disposed of:

Details of the pre-application advice received

Vikas,
Thank you for your email.
Firstly I would advise you that the authorised use of the premises is considered to be as a public house/drinking establishment, which is a sui generis use. The change of use, of the premises, to a Class E restaurant, would therefore require planning permission.
Whilst the former use, of the site, would therefore be a consideration, in assessing a planning application, it does not necessarily justify what might be considered to be a similar use, and the planning application would need to be assessed on its merits. Consequently, if planning permission were granted, it cannot be assumed that opening until 2am could be supported and this would need to be assessed at the planning application stage. Whilst there are commercial units immediately adjoining the site, there are nearby residential uses, and Environmental Health Officers would need to assess this relationship. If such hours are sought, I would recommend that the planning application is accompanied by an acoustic report which justifies those hours.
In terms of parking, I do not feel that a stacked system would work, and all spaces would all need to be able to be accessed unhindered. There would not therefore appear to be 15 spaces available on site, and we would look to see dedicated parking provided on site, that meets the needs of the development.
In relation to car parking, the proposed amount of covers therefore appears to be high. Our initial view is therefore that a change of use could potentially be allowed, but we are not convinced that the site could accommodate extensions which would increase the capacity on site and put additional demand on car parking provision, which would appear to be at an insufficient level to accommodate the level of covers proposed. Any planning application would therefore need to include a transport analysis, which demonstrates that the site could accommodate the level of floorspace and covers proposed.
Our advice would be to make an application for the change of use only and that this would have a better chance of being supported than an application that includes extensions. Either way, the issues identified above would need to be considered at the planning application stage.
The advice in this email is given in good faith on the basis of the information available at the present time. The advice may be subject to revision following further examination or consultation, or where additional information comes to light, and is therefore not binding on any future recommendation, which may be made to the Council or any formal decision by the Council.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:
(a) a member of staff
(b) an elected member
(c) related to a member of staff
(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

◯ Yes
⊘ No

Ownership Certificates and Agricultural Land Declaration

Certificates under Article 14 - Town and Country Planning (Development Management Procedure) (England) Order 2015 (as amended)

Please answer the following questions to determine which Certificate of Ownership you need to complete: A, B, C or D.

Is the applicant the sole owner of all the land to which this application relates; and has the applicant been the sole owner for more than 21 days?

⊘ Yes
◯ No

Is any of the land to which the application relates part of an Agricultural Holding?

◯ Yes
⊘ No

Certificate Of Ownership - Certificate A

I certify/The applicant certifies that on the day 21 days before the date of this application nobody except myself/ the applicant was the owner* of any part of the land or building to which the application relates, and that none of the land to which the application relates is, or is part of, an agricultural holding**

*** "owner" is a person with a freehold interest or leasehold interest with at least 7 years left to run.**

**** "agricultural holding" has the meaning given by reference to the definition of "agricultural tenant" in section 65(8) of the Act.**

NOTE: You should sign Certificate B, C or D, as appropriate, if you are the sole owner of the land or building to which the application relates but the land is, or is part of, an agricultural holding.
