

PLANNING AND
BUILDING CONTROL
26 SEP 2024

17th Sept 2024

Dear Sir / Madam

Re Application N° 14 0832 / FM / 2024
Address: 3, Bleasdale Rd. M22 1EX.

This is a collective concern regarding the above planning application.

We would just like to state, we have no issues with Yemi or her family, regarding this matter. They are a lovely family.

1) Our main concern is the size of the work involved and the length of time it will take. We are very concerned about the disturbance, including, noise, dust, mud, building materials. Also the residents of N°1, N°3 and N°4 are all retirees and are very anxious at what our road will become.

2) The next concern is, PARKING. Bleasdale Road already has horrendous parking. This includes not only cars, but, vans, wagons, HGV and even. There is an Ambulance that visits a house regularly. It has to reverse down the road, so the back of the ambulance is accessible. Also a couple of weeks ago a Fire Engine was called and couldn't get to the house because of the parking. This is very concerning

(3) We are concerned again re parking.
As looking at the plans for the house, it
indicates it could be for multiple occupancy.
Again this ~~is~~ will have another impact
on parking including even more difficulty
on getting on and off drives, and safely
crossing the road.

We hope our concerns will be listened to
and taken into account. Thank you.

Yours Sincerely,

MRS D. JONES - 4 BLEASDALE RD M22 1RU

D Jones 17 09 24.

Ms Kaina Scappaticci
