CLADCO ROOFING

BOX PROFILE 32/1000 Polyester

Lighter with a lower profile and attractive appearance.

Cladco Profile 32/1000 trapezoidal, sometimes referred to as box profile single skin sheet gives robust sheet strength with 6 profiles of 200mm pitch across the sheet width and 32mm profile height, Some users prefer the appearance of this profile as it has lower and less profiles. It's made from coated steel strip and gives 1000mm actual width cover when lapped.

Available in 0.7mm and 0.5mm sheet thickness, PVC Plastisol, Polyester paint finish and plain galvanised coated.

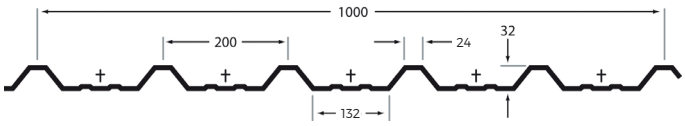

Uses of 32/100 Box Profile Polyester Paint Coated Roof Sheets:

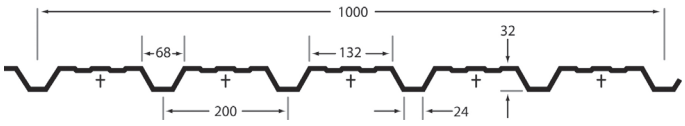

Useful for industrial and agricultural use, as well as for commercial and domestic roofing and cladding projects. Use as part of a built-up insulated system, over cladding of an existing roof or as single skins.

Benefits of 32/1000 Box Profile Sheeting Polyester Coated Roof Sheets:

We can manufacture these profile sheets to your required lengths. This robust profile sheet is highly economical and lightweight, making installation a fast and east process. Independently tested to current CE EN 14782 requirements.
