1. So this Prolery has Some very Concerning trees, I Wald like a Site Meeting to discass. initially.

T1 large Sycamore, Near left to garden. This tree has grown over the nause to the Near, and the Cosiomer is Concerned abar her neighbours Roof. So, we need to remave all the averhanging branches, and balance and reshape the Crown.

T2. Poplar, decaying, remove averhanging branches.

T3/ Sycamore, I Wald like a Site meeting to discuss these trees.
