12. Send out the seeds as evenly as shown on the drawing/planting chart to ensure healthy. Check the soil depth and concerns with its watering prior to cultivation/planting. Contact the Supplier for any additional or special instructions.

13. All plant material shall be watered in immediately after planting. Ensure the full depth of topsoil is covered and the seeds are not exposed to the surface.

14. Irrigate, weed, and thin the plants when appropriate to avoid damaging or obscuring plants.

15. The contractor shall ensure that the seeds are planted at the correct depth to achieve the establishment and continued thriving of all plant material.

16. When using pesticide or fertilizer, the contractor shall adhere to the manufacturer's instructions and current regulations.

17. All work landscapes were to be executed by a registered BAL member.

18. All work landscapes were to be executed by a registered BAL member.

19. ADDITIONAL RECOMMENDATIONS TO MEET CODE FOR SUSTAINABLE HOMES

20. OTHER:

CRITERIA:

- pesticide use such as weed killers, insecticides, slug pellets and fungicides are to be kept to a minimum to prevent any cumulative effects within the animal food chain.
- implement good horticultural practice within the planting scheme (use peat free composts and mulches and use of non-estidial pesticides).
- ensure vegetation clearance or works are undertaken outside of the British bird breeding season (March - August) or ensure a nesting bird survey is undertaken beforehand.
