Dear Mr Mitchell

I am appealing against the above planning application as a resident living at 90 Fog Lane, M206AG. My appeal is on the following grounds:

The proposed location is in an entirely residential location that is at the edge of the wide area suggested by the developer.

Its location should instead be in a commercial location and the council has a duty to examine possible commercial locations and to place any mast where it will have the least impact on households.

The residents living near to the proposed site would find that they have an incongruous 15 metre high mast close to their homes, with a reduction in the space available for pedestrians to use on the pavement below.

Our three local Councillors are opposed to this application. If it is not withdrawn, they have asked that it be considered by the Planning Committee, which I hope would concur with the above appeal.

Yours

Bren Nally
