|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------|
| <p><b>Notes</b></p> <p>All work is to be carried out to the latest current British Standards Codes of Practice and recognised working practices.</p> <p>All work and materials should comply with Health and Safety legislation.</p> <p>All dimensions are in millimetres unless where explicitly shown otherwise.</p> <p>The contractor should check and certify all dimensions as work proceeds and notify the agent of any discrepancies.</p> <p>Do not scale off the drawings, if in doubt ask.</p> <p>HAD &amp; Co. are not liable for any work undertaken prior to Full Planning Consent and/or Building Regulations Approval.</p> <p><b>CDM REGULATIONS 2015</b></p> <p>The client must appoint by the Construction Design and Management Regulations 2015. The client must appoint a contractor, if more than one contractor is to be involved, the client will need to appoint (in writing) a principal designer (to plan, manage and coordinate the planning and design work) and a principal contractor (to plan, manage and coordinate the construction and ensure there are arrangements in place for managing and organising the project).</p> <p><b>Domestic clients</b></p> <p>The domestic client is to appoint a principal designer and a principal contractor when there is more than one contractor, if not your duties will automatically transferred to the contractor or principal contractor. The designer can take on the duties, provided there is a written agreement between you and the designer to do so.</p> <p>The Health and Safety Executive is to be notified as soon as possible before construction work starts if the work:</p> <p>(a) Last longer than 30 working days and has more than 20 workers working simultaneously at any point in the project.</p> <p>Or:</p> <p>(b) Exceeds 500 person days.</p> <p><b>PARTY WALL ACT</b></p> <p>The owner, should they need to do so under the requirements of the Party Wall Act 1998, has a duty to serve a Party Structure Notice on any adjoining owner if building work on, to or near an existing Party Wall involves any of the following:</p> <ul style="list-style-type: none"><li>• Support of beam</li><li>• Insertion of DPC through wall</li><li>• Raising a wall or cutting off projections</li><li>• Demolition and rebuilding</li><li>• Underpinning</li><li>• Insertion of lead flashings</li><li>• Excavations within 3 metres of an existing structure where the new foundations will go deeper than adjoining foundations, or within 6 metres of an existing structure where the new foundations are within a 45-degree line of the adjoining foundations.</li></ul> <p>A Party Wall Agreement is to be in place prior to start of works on site.</p> <p><b>THERMAL BRIDGING</b></p> <p>Care shall be taken to limit the occurrence of thermal bridging in the insulation layers caused by gaps within the thermal element, i.e. around windows and door openings. Reasonable provision shall also be made to ensure the extension is constructed to minimise unwanted air leakage through the new building fabric.</p> <p><b>MATERIALS AND WORKMANSHIP</b></p> <p>All works are to be carried out in a workmanlike manner. All materials and workmanship must comply with Regulation 7 of the Building Regulations, all relevant British Standards, European Standards, Agreement Certificates, Product Certification of Schemes (Kite Marks) etc. Products conforming to a European technical standard or harmonised European product should have a CE marking.</p> |                            |

| <p><b>Drawing No:</b> HAD3479-01</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | <p><b>Scale:</b> 1:100</p> |
| <p><b>Revision:</b></p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |                            |

Existing Front Elevation  
1:100 @ A3

Existing Side Elevation  
1:100 @ A3

Existing Rear Elevation  
1:100 @ A3

Existing Side Elevation  
1:100 @ A3

**Notes**  
All work is to be carried out to the latest current British Standards Codes of Practice and recognised working practices.  
All work and materials should comply with Health and Safety legislation.  
All dimensions are in millimetres unless where explicitly shown otherwise.  
The contractor should check and certify all dimensions as work proceeds and notify the agent of any discrepancies.  
Do not scale off the drawings, if in doubt ask.  
HAD & Co. are not liable for any work undertaken prior to Full Planning Consent and/or Building Regulations Approval.  
CDM REGULATIONS 2015  
The client must appoint a principal designer and a principal contractor. If more than one contractor is to be involved, the client will need to appoint (in writing) a principal designer to plan, manage and coordinate the planning and design work and a principal contractor to plan, manage and coordinate the construction and ensure there are arrangements in place for managing and organising the project.  
Domestic clients  
The domestic client is to appoint a principal designer and a principal contractor when there is more than one contractor, if not your duties will automatically transferred to the contractor or principal contractor. The designer can take on the duties, provided there is a written agreement between you and the designer to do so.  
The Health and Safety Executive is to be notified as soon as possible before construction work starts if the worker:  
(a) Last longer than 30 working days and has more than 20 workers working simultaneously at any point in the project.  
Or:  
(b) Exceeds 500 person days.  
PARTY WALL ACT  
The owner should they need to do so under the requirements of the Party Wall Act 1996, has a duty to serve a Party Structure Notice on any adjoining owner if building work on, to or near an existing Party Wall involves any of the following:  
• Support of beam  
• Insertion of DPC through wall  
• Raising a wall or cutting off projections  
• Demolition and rebuilding  
• Underpinning  
• Insertion of lead flashings  
• Excavations within 3 metres of an existing structure where the new foundations will go deeper than adjoining foundations, or within 6 metres of an existing structure where the new foundations are within a 45-degree line of the adjoining foundations.  
A Party Wall Agreement is to be in place prior to start of works on site.  
THERMAL BRIDGING  
Care shall be taken to limit the occurrence of thermal bridging in the insulation layers caused by gaps within the thermal element, (i.e. around windows and door openings). Reasonable provision shall also be made to ensure the extension is constructed to minimise unwanted air leakage through the new building fabric.  
MATERIALS AND WORKMANSHIP  
All works are to be carried out in a workmanlike manner. All materials and workmanship must comply with Regulation 7 of the Building Regulations, all relevant British Standards, European Standards, Agreement Certificates, Product Certification of Schemes (Kite Marks) etc. Products conforming to a European technical standard or harmonised European product should have a CE marking.

0m 1m 2m 4m 6m 8m 10m

Proposed Roof Plan  
1:100 @ A3

**Notes:**  
All work is to be carried out to the latest current British Standards Codes of Practice and recognised working practices.  
All work and materials should comply with Health and Safety legislation.  
All dimensions are in millimetres unless where explicitly shown otherwise.  
The contractor should check and certify all dimensions as work proceeds and notify the agent of any discrepancies.  
Do not scale off the drawings, if in doubt ask.  
HAD & Co. are not liable for any work undertaken prior to Full Planning Consent and/or Building Regulations Approval.  
**CDM REGULATIONS 2015**  
The client must appoint a principal designer and a principal contractor. If more than one contractor is to be involved, the client will need to appoint (in writing) a principal designer (to plan, manage and coordinate the planning and design work) and a principal contractor (to plan, manage and coordinate the construction and ensure there are arrangements in place for managing and organising the project).

**Domestic clients**  
The domestic client is to appoint a principal designer and a principal contractor when there is more than one contractor, if not your duties will automatically transferred to the contractor or principal contractor. The designer can take on the duties, provided there is a written agreement between you and the designer to do so.

The Health and Safety Executive is to be notified as soon as possible before construction work starts if the work:  
(a) Lasts longer than 30 working days and has more than 20 workers working simultaneously at any point in the project.  
Or  
(b) Exceeds 500 person days.

**PARTY WALL ACT**  
The owner should they need to do so under the requirements of the Party Wall Act 1996, has a duty to serve a Party Structure Notice on any adjoining owner. Building work on, to or near an existing Party Wall involves any of the following:  
• Support of beam  
• Insertion of DPC through wall  
• Raising a wall or cutting off projections  
• Demolition and rebuilding  
• Underpinning  
• Insertion of lead flashings  
• Excavations within 3 metres of an existing structure where the new foundations will go deeper than adjoining foundations, or within 6 metres of an existing structure where the new foundations are within a 45-degree line of the adjoining foundations.  
A Party Wall Agreement is to be in place prior to start of works on site.

**THERMAL BRIDGING**  
Care shall be taken to limit the occurrence of thermal bridging in the insulation layers caused by gaps within the thermal elements, i.e. around windows and door openings. Reasonable provision shall also be made to ensure the extension is constructed to minimise unwanted air leakage through the new building fabric.  
**MATERIALS AND WORKMANSHIP**  
All works are to be carried out in a workmanlike manner. All materials and workmanship must comply with Regulation 7 of the Building Regulations, all relevant British Standards, European Standards, Agreement Certificates, Product Certification of Schemes (Kite Marks) etc. Products conforming to a European technical standard or harmonised European product should have a CE marking.

Existing Section A-A 1:100 @ A3

Proposed Section A-A 1:100 @ A3

**Notes**  
 All work is to be carried out to the latest current British Standards Codes of Practice and recognised working practices.  
 All work and materials should comply with Health and Safety legislation.  
 All dimensions are in millimetres unless where explicitly shown otherwise.  
 The contractor should check and certify all dimensions as work proceeds and notify the agent of any discrepancies.  
 Do not scale off the drawings, if in doubt ask.  
 HAD & Co. are not liable for any work undertaken prior to Full Planning Consent and/or Building Regulations Approval.  
 CDM REGULATIONS 2015  
 The client must appoint by the Construction Design and Management Regulations 2015. The client must appoint a contractor, if more than one contractor is to be involved, the client will need to appoint (in writing) a principal designer (to plan, manage and coordinate the planning and design work) and a principal contractor (to plan, manage and coordinate the construction and ensure there are arrangements in place for managing and organising the project).

**Domestic clients**  
 The domestic client is to appoint a principal designer and a principal contractor when there is more than one contractor, if not your duties will automatically transferred to the contractor or principal contractor. The designer can take on the duties, provided there is a written agreement between you and the designer to do so.  
 The Health and Safety Executive is to be notified as soon as possible before construction work starts if the work:  
 (a) Lasts longer than 30 working days and has more than 20 workers working simultaneously at any point in the project.  
 Or:  
 (b) Exceeds 500 person days.  
**PARTY WALL ACT**  
 The owner, should they need to do so under the requirements of the Party Wall Act 1996, has a duty to serve a Party Structure Notice on any adjoining owner if building work on, to or near an existing Party Wall involves any of the following:  
 • Support of beam  
 • Insertion of DPC through wall  
 • Raising a wall or cutting off projections  
 • Demolition and rebuilding  
 • Underpinning  
 • Insertion of lead flashings  
 • Excavations within 3 metres of an existing structure where the new foundations will go deeper than adjoining foundations, or within 6 metres of an existing structure where the new foundations are within a 45-degree line of the adjoining foundations.  
 A Party Wall Agreement is to be in place prior to start of works on site.

**THERMAL BRIDGING**  
 Care shall be taken to limit the occurrence of thermal bridging in the insulation layers caused by gaps within the thermal element, i.e. around windows and door openings. Reasonable provision shall also be made to ensure the extension is constructed to minimise unwanted air leakage through the new building fabric.  
**MATERIALS AND WORKMANSHIP**  
 All works are to be carried out in a workmanlike manner. All materials and workmanship must comply with Regulation 7 of the Building Regulations, all relevant British Standards, European Standards, Agreement Certificates, Product Certification of Schemes (Kite Marks) etc. Products conforming to a European technical standard or harmonised European product should have a CE marking.

2x Parking Spaces

# Cowesby st

1:200 @ A3

- The Health and Safety Executive is to be notified as soon as possible before construction work starts if the works:
  - Last longer than 30 days or start more than 20 workers working simultaneously at any point in the project,
  - Exceeds 500 man hours.

**PARTY WALL ACT**

Any building owner who has to do under the requirements of the Party Wall Act 1996, has a duty to serve a Party Structure Notice on any adjoining owner if building work is to, or upon an existing Party Wall.

- Part of the boundary of the building
- Support of beam
- Insertion of DPC through wall
- Raising a wall or cutting off projections
- Excavations within 3 metres of an existing structure where the new foundations will go deeper than adjoining foundations, or within 6 metres of an existing structure where the new foundations are within 4.5 metres of the adjoining foundations.

On the Party Wall Agreement it is to be in place prior to start of works on site.

**THERMAL BRIDGING**

Partial heat is taken to limit the occurrence of thermal bridging in the insulation caused by gaps in the insulation with the thermal element, i.e. around doors and floor joists. Reasonable provision shall also be made to ensure the external and construction to minimise unwanted air leakage from the new building.

**MATERIALS AND WORKMANSHIP**

All works are to be carried out in a workmanlike manner. All materials and workmanship must comply with Regulation 7 of the Building Regulations, the European Standards, the British Standards, Approved Certificates, Product Certification of Schemes (Pike Marks) etc. Products used must be in full compliance with the European and marked European product should have a CE marking.

a- Added the existing parking spaces.
