Dear Sir/Madam

Proposed Temporary Traffic Regulation Order
Deansgate, Deansgate Ward
MCC000138762856.

I refer to your recent application. I have now arranged to make the following Temporarily Traffic Regulation Order (TTRO): The City of Manchester (Deansgate, Deansgate Ward Temporary) Order 2024**.** The effect of the Order is to restrict or prohibit pedestrian and/or vehicular traffic on Deansgate from Chester Road to Owen Street.

The statutory procedure has been based on the operational dates provided of 10th June 2024 and 6th July 2026**.** The Council therefore expects your works to be commence on the day of the operational start date of this order (failure to do so may result in the Order being cancelled) and be completed by its operational end date. However; if there are any unavoidable changes to the programme, please inform me as soon as possible. Would you please note that if the Order has been made such that it will be in effect for longer than eighteen months, you will be required to pay all reasonable costs incurred in revoking it following completion of the works.

Please also be aware that you will be responsible for implementing and maintaining the approved traffic management plan. On completion of the works you will be also be responsible for the removal of all signs together with any associated temporary fixtures and, where necessary, for reinstating the highway in accordance with the New Roads & Streetworks 'Standard Reinstatement of Highways'. Failure to maintain the traffic management plan or to reinstate the highway to an acceptable standard may result in the TTRO being revoked and/or works being carried out in default and charged accordingly.

A copy the Order is attached for your records.

Yours faithfully

Liam Murphy
