

Welcome to the new and Improved Social Value report for Building Division

We have pulled together the wide-ranging activities that form the social value being generated by our projects. The dashboard reports bring together data on community, education & training, supply chain and environmental, allowing you to drill down to project level. We've also added auto 'Local' filters. If yours isn't working let your Regional Champion know.

You should be reviewing this report:

At least once a month

Why should you be looking at this report:

To help you to monitor your activities and report to your clients to meet contractual Social Value requirements.

26/07/23	HE0003	Supply Chain Engagement	Supply Chain Engagement	3 x Titanium Talks sessions The subject surrounds H&S from Justin Manley's perspective after a life threatening accident at work (See attached). This event was attended by approximately 80 people - the client, staff from Withybush Vinci as well as subcontractors from both sites and Glangwili Vinci	The events had a very definite impact on all that attended. Justin's story and the consequences of a decision taken in a split second touched everyone who attended. The photograph shows Justin with some of the Glangwili Hospital Vinci team. H&S awareness was raised during the course of these sessions.
