# Your Waste Audit

As experts in waste management, with almost 40 years of first-hand industry specific experience, we are confident that we provide unrivalled waste advice to our customers on a site-specific basis.

Based on our initial meeting and site audit, I have identified the following solutions:

## **Overweight Charges**

-  **We will provide containers with a higher weight limit to help you avoid excess weight charges. We will also monitor the weights of the collections to make sure that you always have the most cost-effective solution for the site.**

## **No account manager or site reviews.**

-  **You will have me as a direct point of contact for the sites and be able to contact me on my mobile (07852 545 289) should you need anything. I will also conduct site audits throughout the year to ensure that you always have the most cost effective set up for the site.**

# Your Pricing

Our purpose is to manage your waste effectively, delivering tangible environmental and commercial benefits to all our customers. We firmly believe that you should feel entitled to a reliable waste management solution that is cost-effective and always environmentally responsible.

**Site : 6-12 FOUNTAIN STREET, MANCHESTER, M2 4AA**

Total Annual Cost - £1050.40

# We Are Committed

Kenny Waste Management has put the customer first since 1985. We began as a family business in Manchester, providing a local best-in-class service to local businesses.

Today, we are the leading independent supplier of commercial and construction waste management solutions in the North West, guided by our [zero landfill ethos](#). Regionally, we offer a complete managed service to our Greater Manchester customers, directly operating and maintaining our fleet of more than 50 low-carbon vehicles and our own bespoke Materials Recovery Facilities (MRFs) which process more than 180,000 tonnes of waste per year.

Every organisation is unique, and we recognise that every organisation generates waste in a way that is unique to its operations. One of our Commercial Waste Consultants will co-operate with you closely to determine the right cost-effective waste management solution for your business.

We are committed to being a Responsible Business, and our model provides you with the guarantee of transparency, auditability, and compliance. Our commitment to [social value](#), our shared environment, and the communities we are a part of extends even further. In 2018, we were inspired to establish our very own Social Enterprise to strategically address the inequalities that exist for those who are furthest from meaningful employment.

You can visit our website to learn more about us and browse our complete range of responsible waste management services:

## YOUR TOTAL WASTE MANAGEMENT SERVICES

We manage all types of waste from a wide range of industries throughout the UK, operating our own Materials Recovery Facilities (MRFs) in Greater Manchester.

### YOUR BIN COLLECTIONS

Reliable collection services on a **full range of bin sizes** to suit your needs, from 240 litre wheelie bins to 10 cubic yard FEL bins, colour-coded by waste stream for your convenience.

### YOUR SKIP HIRE

Service-led **reliable skip hire** direct for our commercial waste customers in Greater Manchester, ranging from 2 cubic yard mini skips up to 40 cubic yard roll-on roll-off skips.

### YOUR BALERS & COMPACTORS

Range of balers and compactors providing a cost-effective and space-efficient solution to certain waste streams, helping you to **save money, reduce your carbon footprint**, and even **generate revenue on certain baled waste streams**.

### YOUR HAZARDOUS WASTE

Direct delivery and collection of hazardous waste solutions, ensuring your full environmental compliance on waste such as **vapes, oily rags, paints and solvents, electrical, cleaning products, battery recycling**, and more...

### YOUR WASHROOM SERVICES

Generating energy from your hygiene waste disposal. Full range of services for washrooms, clinical, hazardous, and infectious waste, producing Refuse Derived Fuel (RDF).

### YOUR SECURE SHREDDING

BS EN15713:2009 shredding standard accredited, 100% recycled. Confidential material, digital media, ID badges and other branded goods.

Operating on a zero-landfill policy prioritising recycling and feeding alternative fuels such as RDF (Refuse Derived Fuel) into the UK energy mix

Separated into individual recycling streams, such as plastic bottles, LDPE plastics, non-ferrous and ferrous metals, etc., at our MRFs for onward recycling.

Aggregated and baled (shaped and compacted) for onward recycling. All recycled cardboard comes back to life as new cardboard via the paper mill

Glass packaging waste is separated and processed for reuse as more glass bottles or fed into alternative products such as road base.

Transported to specialist AD (Anaerobic Digestion) facility to produce biogas, electricity, and bio-fertilizer used to nourish UK agriculture.

**BESPOKE  
SOLUTIONS  
AVAILABLE**

A 3D pie chart illustrating the distribution of waste management. The chart is divided into three segments: a large blue segment labeled 'Recycled', a smaller orange segment labeled 'Recovered', and a small green segment labeled 'Landfill'.
