Comment Details

Commenter Type: Neighbour
Stance: Customer objects to the Planning Application
Comment Reasons:
Comment:I object to the scheme, I do not understand how the large scale and especially the height of the building is in line with the conservation area and other buildings on ellesmere st. A better option would be to renovate the Dot cycles building as it stands and preserve the area.

Residents around the area also deserve a period where no construction is undertaken, there have been a number of schemes developed or remediated since at least 2014.
