MANCHESTER CITY COUNCIL

Appendix E - Waste Management Strategy (v7.00 from September 2023)

Planning Application Number: 139998/FO/2024
Date Submitted: 13/05/2024
Estimated volumes / m2 required by the development

Will this property be used as a House in Multiple Occupation (HMO)?	~~Yes~~ / No (delete as appropriate)
If this property will be used as an HMO, how many people do you intend to accommodate (5+)?	N/A

Low Rise Domestic N/A

Waste Types	Capacity required (litres)	Number of bins required (per household)	Confirm what is to be provided (and whether the developer or the resident will be responsible for ordering these)
General refuse	140 standard / 240 in certain circumstances	1 x wheeled bin (possibly more for HMO)	
Pulpable Recycling	240	1 x wheeled bin (possibly more for HMO)	
Mixed Recycling	240	1 x wheeled bin (possibly more for HMO)	
Garden Waste	240	1 x wheeled bin (possibly more for HMO)	
Food Waste	23	1 x 23 litre caddy (Possibly more for HMO)	

High Rise Apartment Developments N/A

0.43m2 has been provided per apartment for the containers, with extra space for residents to access each container and space for staff to manoeuvre each container for collection. (different for purpose-built student accommodation – see guidance)	Yes / No (delete as appropriate) How many of each container do you plan to provide? _____ x general refuse x 1100 litre (based on 110 litres per apartment) _____ x pulpable Recycling x 1100 litre (based on 55 litres per apartment) _____ x mixed recycling x 1100 litre (based on 55 litres per apartment) _____ x food waste x 240 litres (based on 10 litres per apartment) _____ x garden waste (if applicable) x 240 litres
Is it as easy, or easier, for residents to recycle, as it is for them to dispose of general waste?	Yes / No (delete as appropriate)

Commercial Developments

Please state number of bins you propose, showing calculations where appropriate.

General Waste - **General Waste:** Stored in premises. To be collected daily by contract company (company TBC); Retail - Approx. 240L / day collected up to seven times a week (sub-total up to 1,680L); Cafe / Bar - Approx. 1,500L / day collected up to seven times a week (sub-total up to 10,500L). **Total - Approx 1,740L / day collected up to seven times a week (total up to 12,180L).**

Dry recycling (include material type details) - **Dry Recycling:** Stored in premises. To be collected daily by contract company (company TBC); Retail - Approx. 240L / day collected up to seven times a week (total up to 1,680L) Cafe / Bar - Approx. 1,500L / day collected up to seven times a week (sub-total up to 10,500L). **Total - Approx 1,740L / day collected up to seven times a week (total up to 12,180L).**

Food Waste - N/A

Industrial Waste - N/A

Other - N/A

Has / will a contract be obtained with a licenced waste carrier?	Yes / ~~No~~ (delete as appropriate

Mixed Use Developments N/A

Are the stores for residential and commercial waste completely separate from each other, with residents having no access to the commercial store and the commercial units having no access to the residential store?	Yes / No (delete as appropriate)

Internal Stores (Residential and Commercial)

Please provide details of internal stores / segregation of waste and recycling.

Waste will be stored within the premises and separated into the following categories: general waste; paper waste; and recyclable waste. Following temporary storage in localised waste receptacles (small domestic scale bins), all waste will be stored within the indicated waste storage area to await daily collection. The passenger lift may be utilised for moving bagged waste between floor levels for collection.

Storage Areas for Waste Containers (Residential and Commercial)

Please provide details of container stores, attaching plans if appropriate.

Following temporary storage in localised waste receptacles (small domestic scale bins), all waste will be stored within the indicated waste storage area to await daily collection. All waste will be stored in bags supplied by waste collection company.

Ensure all bins in the store are accessible	☑
Ensure recycling facilities are as easy to access as general refuse	☑

Please confirm details of waste store ventilation and hygiene / cleaning proposals

Ventilation -	Storage of waste and ventilation to be in accordance with Building Regulations, including but not limited to Approved Document B.
Hygiene -	Waste to be collected and removed daily by waste removal company. A daily cleaning regime will be implemented to ensure the room remains clean and in a hygienic state. Storage area to be finished in hardwearing, easy to clean surfaces.

Please provide details of who will be responsible for placing the bins at the collection point and returning them to the store / property promptly e.g., resident / management company

Staff will be responsible for ensuring all bags are placed in a suitable location for daily collection by the contracted waste management company.

Please ensure that you have attached:

Detailed plans of bin stores	☐
Location plans showing stores	☐
Location plans showing the proposed collection point and the route the collection vehicle will take (please refer to the Road, Vehicle and Waste Operative Access Specification – paying particular attention to turning space and reversing)	☐

Please ensure that you have completed this form in accordance with the latest version of GD04 Waste Storage and Collection Guidance for New Developments – v.7 September 2023, read in conjunction with the Waste and Recycling Service Standard found on the Council website.
