Compliance with conditions

- Your planning approval or consent is attached. It will contain conditions that you must comply with.
- Please read the conditions and understand their requirements and restrictions, for example submission and approval of details or measures to protect trees.
- Some conditions will require action before you start development and it is imperative that you seek to have these discharged before any work commences.
- Whilst every effort has been made to group conditions logically, it is your responsibility to ensure that you are aware of the requirements and/or restrictions of all conditions.
- If you fail to comply with the conditions this may result in a breach of planning control and this may lead to enforcement action.
- Failure to comply with conditions may also result in the development not being lawful.
- It is in your interests to demonstrate that conditions have been complied with. Failure to do so may cause difficulties if the property is sold or transferred.

The submitted methodology must include detail on building protection methods. For the avoidance of doubt bespoke information for each of the twelve archways will be required to be submitted. The approved details shall then be carried out as part of the development.

b) Upon the completion of the investigative works approved under part (a) of this condition and prior to the commencement of any works in relation to the core drilling/weephole works, a full survey for each arch when fully exposed, and a detailed design for the core drilling/weephole works which shall identify the number of weepholes to be installed for each of the twelve archways, as well as their location, depth and profile, shall be submitted to and approved in writing by the City Council as Local Planning Authority. For the avoidance of doubt this shall include materials, finishes, fixing details, areas to be left exposed and overall

For the avoidance of bespoke information for each of the twelve archways will be required to be submitted. The development shall then proceed in accordance with the approved details.

Reason- In the interests of visual amenity and because the proposed works affect a building which is included in the Statutory List of Buildings of Special Architectural or Historic Interest and careful attention to building work is required to protect the character and appearance of this building and to ensure consistency in accordance with policies CC9 and EN3 of the Core Strategy and saved policy DC19.1 of the Unitary Development Plan for the City of Manchester

5) Upon the discharging and completion of the works secured by conditions 3 and 4 but prior to the reoccupation of each of the twelve archways, tenant fit out strategies for each arch or confirmation no fit out works are proposed for an archway, shall be submitted to and approved in writing by the City Council as Local Planning Authority. For the avoidance of doubt locations of toilets, kitchen units and other areas of similar uses should be confirmed, additionally, it should be noted that this does not supersede the need for an application for listed building consent for any alterations to existing building fabric or the subdivision of spaces within those units.

Reason- In the interests of visual amenity and because the proposed works affect a building which is included in the Statutory List of Buildings of Special Architectural or Historic Interest and careful attention to building work is required to protect the character and appearance of this building and to ensure consistency in accordance with policies CC9 and EN3 of the Core Strategy and saved policy DC19.1 of the Unitary Development Plan for the City of Manchester
