Hi Ian,

See attached drawing discussed in last week's meeting.

Thanks

Hi Tausif,

Could I please ask for the latest copy of the telecoms and drains drawings that we discussed last week? This is only for our records and I can send confirmation over straight away.

Many thanks

Kind Regards,

Ian Marcroft Engtech MIGEM

Hi Neil,

Are you able to issue an email confirmation regarding acceptance of locality and crossings of drains / services to meet planning conditions as highlighted in email below. We're not able to discharge the conditions until we've received your response.

Many Thanks

Tausif

Neil/Ian,

Many thanks for the time just now to discuss the pipework positions and depths.

We have, as discussed today amended the route slightly to offer more building tolerances for the drainage manholes, the Hydrant position and the drain runs.

We attach a copy of the revised Gas pipe route and wayleave marked along its length.
We have also attached the existing topo drawing for your information.

We have discussed the depths of the NG pipework along its length and the turning circle etc together with drainage cross overs and the crossing point may alter to suit your depth of service along the route. We have discussed the same with the structural engineer and will revert back to you with any further details, but please work to this drawing for legals and progression of the pipe alteration.

For planning conditions, we understand we need an email confirmation the Locality of the drains and the manholes etc are acceptable together with the principle of the other services, and drains, crossing are acceptable. Could you arrange for this to be issued?

Many Thanks once again.
Best Regards
Sean

Kind Regards
Sean
