Car Sharing & Car Club

Car sharing is one of the easiest travel changes you can make! Car sharing will help you save money, reduce your emissions and lower congestion in the local area, making the roads quieter and safer.

Joining a car sharing scheme will enable you to simply and securely find others travelling in the same direction so you can arrange to share a car. **It works whether you have a car or not** – meaning you are able to travel either as a driver, or by joining someone else as a passenger.

If everyone car shared just once a week, there would be a 20% reduction in traffic.

Why not register and give it a try today?

Car Share Schemes

Liftshare enables organised car sharing by connecting people travelling in the same direction so they can travel together and share the costs:

https://liftshare.com/uk

You can share a car for any journey, just enter the details of where and when you would like to request or offer a lift; it could be your daily commute to work, the weekly shop, taking the children to school or even getting to the airport.

Car sharing has numerous benefits including:

Saving up to £1000 a year

Reducing the need for a private car

Less environmental impact as the number of cars on the road are reduced

Fewer parking problems

Car Clubs

Enterprise Car Club rent vehicles by the hour (or day) and have a selection of cars ranging from smaller economy cars to larger SUVs. More information can be found on the website:

https://www.enterprisecarclub.co.uk/gb/en/home.html

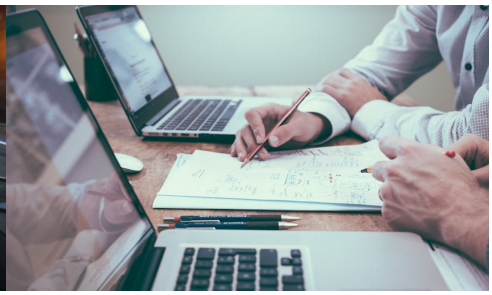

The nearest vehicles are located on Provis Road, an approx. 10 min walk from the store, and on Torbay Road, an approx. 12 min walk from the store.
