

Clinical Waste Produced by the development at 376 Slade Lane

Estimated volumes and types of waste produced by the development:

- X1 660 litres General Waste Bin with lock
- X1 660 litres Pulpable waste Bin with Lock
- X1 240 litres Food Waste Bin with Lock
- X1 660 litres Clinical Waste Bin with Lock

Details of internal and external stores for both waste and recycling, including any plans and designs.

- Main bin storage point is located at the side, adjacent to the emergency parking as indicated in the external drawing
- Internally, small bins will be kept in the kitchen area, sitting area and all bedrooms. These will be emptied on every shift and transferred to the main waste bins through the existing rear garden gate located externally as shown in the external drawing.

Location of the proposed collection point and details of the route the collection vehicle will take:

- Proposed Collection point is at the front, adjacent to the emergency parking.
- The bin collectors can easily access the bins from its location point, then wheel it to the awaiting collection vehicle at the main entrance.

Details of how waste will be transferred between stores and to the collection location:

All waste will be stored in colour coded pedal bins with colour coded bags. The location of the internal bins will be:

- Kitchen: 1x 30litre food bin and 1x 30liter general waste bin
- Sitting area: 1x 20litre General waste bin and 1x 20 litre pulpable waster bin
- All bedrooms: 1x 5litre general waste bin each
- Training suit: 1x 20litre General waste bin and 1x 20 litre pulpable waster bin

These will be emptied by staff on each shift using the back door to the rear garden, to get to the main waste location point where it will be stored until collection day which will be weekly (for the food bin) and fortnightly for (general waste, Pulpable waste and clinical waste)

Details of number and capacity of bins proposed and collection frequency:

- X1 General Waste Bin with lock: 660 Litres (Fortnightly)
- X1 Pulpable waste Bin with Lock: 660 Litres (Fortnightly)
- X1 Food Waste Bin with Lock: 240 Litres (Weekly)
- X1 Clinical Waste Bin with Lock: 660Litres (Fortnightly)
