Travel Survey Questionnaire

A Traffic Management Plan is being implemented at the **Al Falah Masjid in Heywood Street, Manchester** and this is a requirement of the planning permission by Manchester City Council.

The Traffic Management Plan aims to reduce the number of car journeys that are made and encourage trips by sustainable transport such as walking, cycling and public transport (and to a certain degree car sharing), and the use of Low Emission Vehicles. This will improve environmental and traffic conditions at a local and national level. You have probably seen the problems of traffic congestion and environmental pollution (including air pollution), widely reported in the media and this is your opportunity to think about how you travel and whether you can reduce the number of car journeys that are made. Active travel such as walking and cycling can also contribute to a healthy lifestyle.

Question 1

What is the reason for travelling to the Mosque and/or Madrassa? (please tick all that apply)

Visit to the Mosque	
Take child to the Madrassa
